However, further clarification regarding when an advisory board is necessary, their decision making powers, the membership of this board are required as well as the requirement of the Commissioner to adhere to their recommendations is required.

**Proposed feedback to the LGA**
Council does not support the proposal to allow the Ministerial boundary adjustment submissions on the basis that Ministerial initiated submissions may look to serve a political agenda and not reflect the sentiment of the community. **Proposed feedback to the LGA**
Council supports the proposal to allow the single council boundary adjustment submissions in principle on the basis that the proposal will allow for the consideration of all options and it will increase the transparency, accountability and independence of the decision making process. This support is subject to further clarification on the consultation of affected stakeholders, whether all residents and ratepayers in the affected area need to agree to the adjustment with details of how this is achieved as well as a description of a stringent assessment process for boundary adjustment proposals to prevent frivolous and unsupported proposals. Further information is also required in situations where there are not 5 members of the public who have lodged a submission but are required to form a committee to represent the submission.
### 2.5 Create a single application process for all proposals initiating a change

**Proposed feedback to the LGA**

Council supports the proposal to streamline the application process for boundary adjustment submissions in principle on the basis that the proposal will allow for a simpler proposal process whilst maintaining transparency and encouraging the investigation of all options, subject to an appropriate process and criteria incorporated into the *Local Government Act 1999*.

### 2.6 Require all submissions to be made direct to the Commissioner

**Proposed feedback to the LGA**

Council supports the proposal to include initial assessment criteria for major and minor boundary adjustment submissions in principle as they are likely to streamline the process for boundary adjustments and reduce unnecessary expenditure. However, this support is conditional on the number of criteria being broadened to include key factors such as employees, assets, liabilities, payments, services and documentation as well as process considerations which would occur if the Minister or Commission/er amended or substituted a submission which changed the nature of the proposal from a minor to a major boundary adjustment.
### 3.4 Enable Commissioner to seek information for the purposes of pre-assessment as the Commissioner sees fit

**Proposed feedback to the LGA**
Council supports the proposal to enable Commissioner to seek information for the purposes of pre-assessment as the Commissioner sees fit in principle as they are likely to streamline the process for boundary adjustments and reduce unnecessary expenditure.

However, further clarification regarding when an advisory board is necessary, their decision making powers, the membership of this board are required as well as the requirement of the Commission/er to adhere to their recommendations is required.

### 5.2 Commissioner, together with Advisory Body, be given power to manage an options development phase that includes a consultation process with the relevant parties and collaborative optioneering

**Proposed feedback to the LGA**
Council supports the Proposal to allow a Commissioner, together with Advisory Body, be given power to manage an options development phase that includes a consultation process with the relevant parties and collaborative optioneering in principle on the basis that the proposal will allow for increased transparency and encourage the investigation of all options, subject to the further development of the process to determine who is responsible for considering the options and determining which option/s is pursued.

**Proposed feedback to the LGA**
Council does not support the Proposal that a Commissioner to develop guidelines and tools for implementation, apportionment and transitional arrangements on the basis that the proposal will place undue stakeholder and community engagement plan in the case of major boundary adjustment. The proposal also contains no guidance on what process should be followed in the event that affected councils do not agree on elements of the implementation plan, or the implementation plan as a whole. It is proposed that in the case of major boundary adjustment, such as amalgamation, or where affected councils disagree on any element of the implementation plan, that an independent and appropriately skilled third party, is contracted by the affected councils to develop and implement this plan to ensure independence and transparency in the process.

6.2 Commissioner to assist affected Councils to prepare an implementation plan
