At the meeting of Council on 4 August 2020, Cr John Woodward moved the following motion which the Presiding Member ruled would be deferred to the meeting of Council on 18 August 2020.

**MOTION**

That Council write to the Minister for Education, seeking financial support for five (5) reserved car park spaces at Kesmond Reserve for the teachers and staff from Richmond Primary School.

**16 MOTIONS WITHOUT NOTICE**

## 17 REPORTS OF THE CHIEF EXECUTIVE OFFICER

### 17.1 Request to Rename a Reserve in Honour of Mr Wally Shiers

#### Brief

A request has been received to rename an appropriate Council reserve in honour of the Vickers Vimy mechanic, Mr Wally Shiers.

#### RECOMMENDATION

It is recommended to Council that it approves the commencement of a consultation process, to rename the "Baroda Avenue Reserve" located on Baroda Avenue, Netley, to "Wally Shiers Reserve", with the results presented to Council for further consideration.

---

#### Introduction

A request has been received to rename a reserve within the City of West Torrens and adjacent to the airport in honour of the Vickers Vimy mechanic, Wally Shiers (**Attachment 1**).

#### Discussion

##### Request and background information

A request has been received from a descendant of Mr Wally Shiers, which is supported by Lainie Anderson, the Epic Flight Centenary Ambassador and *Long Flight Home* author, to rename a reserve within West Torrens to honour Mr Wally Shiers, the mechanic for the Vickers Vimy. Ms Anderson has provided an extensive background on Mr Wally Shiers as summarised below:

- Walter Henry Shiers was born in Stepney on 17 May 1889 as the eighth child in a family of twelve (12).
- Mr Shiers attended Richmond Primary School and from 1896 lived on Davenport Terrace, Hilton.
- Mr Shiers worked as a market gardener after leaving school in 1902 and, following the death of his mother, moved to Broken Hill in 1904 to join his brother in the mines.
- At the outbreak of World War 1 Mr Shiers was working in the NSW Riverina as an electrician when he enlisted in the Light Horse Regiment and left for Egypt in June 1915.
- In 1916 Mr Shiers transferred to the Australian Flying Corps' No. 1 Squadron and had a reputation as someone who could fix anything.
- By the end of the war, Mr Shiers was working with Mr Jim Bennett on the twin Rolls Royce Eagle VIII engines for the Handley Page aircraft.
- Mr Shiers became the obvious choice for the Smith Brothers crew to fly the Vickers Vimy in the Great Air Race given the rudimentary aircraft would not have made those sorts of distances without skilful mechanics.
- After the great and historic race, Mr Shiers settled in Sydney where he lived and worked for many years as the chief engineer with Airlines Australia.
- During World War II Mr Shiers worked in the manufacture of parachutes for the war effort.
- After the death of his wife in the 1950's Mr Shiers returned to Adelaide and resided on Bennett Street in Hilton.
- Mr Shiers passed at the age of 79 in 1968. His obituary was placed in the Advertiser (**Attachment 2**).

### Reserve Location

The request to rename a reserve did not propose a specific reserve however, given its proximity to the Adelaide Airport, which houses the Vickers Vimy, the Baroda Avenue Reserve in Netley has been identified by the Administration as the most appropriate location (**Attachments 4 and 5 respectively**). The reserve runs to the east of the boundary of the airport and contains a shaded play area along with open space.

Baroda Avenue was named for the former state of Baroda, now Vadodara in Western India. Vadodara is the third largest city in the Indian state of Gujarat and was part of the historic Bombay.

### Asset Renaming Requirements

Council has the power to assign a name to, or change the name of, a public place pursuant to s219 of the *Local Government Act 1999* (Act).

The *Council Policy: Asset Naming* (Policy) contains the process by which Council can name or rename an asset it owns within the City of West Torrens (**Attachment 3**).

For information, Council at its meeting held 21 July 2020 resolved for the Administration to prepare a report for Council consideration relating to branding guidelines and naming policy for Council owned sporting and community facilities.

While this policy is yet to be prepared and presented to Council, it is intended that the new policy will relate to:

- Community Centres, halls, libraries, theatres and other similar fixed structures; and
- Sportsgrounds, including buildings and other fixed structures therein primarily used for active recreational activities.

It is intended that the new policy will not cover the naming of parks and other open space assets which are covered by the *Council Policy: Asset Naming*.

The Policy requires that a renamed place be "unique" and investigation by the Administration has confirmed that there is no other asset with in the City of West Torrens named in honour of Mr Wally Shiers.

The name must also be "*appropriate to the physical, historical or cultural character of the area concerned.*" The proposed reserve (**Attachment 4**) adjoins the airport, seemingly ensuring it fits this criteria. In addition, Mr Shiers' involvement in the Vickers Vimy is a significant historical event.

### Consultation Requirements

To progress an asset's name change, Council is required to undertake public consultation on the proposed name change. Consequently, this reports seeks Council's approval to do so. The consultation will be undertaken pursuant to the Act and the Policy with a further report to be presented to Council on the outcome of the consultation for its final decision on the name change proposal.

The consultation will include affected land owners (being those that own or reside in a property within a 300m of the reserve) and relevant agencies including but not limited to Australia Post, SA Ambulance Service, Metropolitan Fire Service, SA Power Networks and the Local Government Association.

### **Climate Impact Considerations**

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

This report does not contain any relevant climate impact considerations.

**Conclusion**

A request has been received to rename Baroda Avenue Reserve as Wally Shiers Reserve.

25 February 2020

Dear Mayor and Mr Buss,

I am writing in support of a place-naming proposal for the City of West Torrens to honour one of its most high-achieving, but largely forgotten, former residents – Vickers Vimy mechanic Wally Shiers.

In 1919, Adelaide-born Wally joined South Australian brothers Sir Ross and Sir Keith Smith (and Victorian mechanic Jim Bennett) in achieving the first flight across the world from England to Australia. International aviation historians believe the feat was as awe-inspiring in its day as man landing on the moon 50 years later, and that the Vickers Vimy aircraft housed at Adelaide Airport (and set to be relocated to a prominent new position in 2021) is now one of the most significant aviation artefacts on the planet. For more background on the flight please refer to my Churchill Fellowship report: <https://www.churchilltrust.com.au/fellows/detail/4093/Lainie+Anderson>

When Sir Ross Smith landed in Darwin after that pioneering, 28-day journey, he was hailed by *The New York Times* as the world's foremost living aviator. If that was true, I believe Wally Shiers and Jim Bennett were at that time the world's foremost living air mechanics.

Sir Ross knew better than anyone how crucial their role had been in the flight, and later wrote that his "master mechanics" shared equally in the worthiness of the first flight across the world. In fact, the last words of his memoir *14,000 Miles through the Air* read: "Their loyalty and devotion to duty have done much to bind closer the outposts of the Empire through the trails of the skies."

Wally Shiers was the oldest of the four Smith crew and one of a dozen Shiers siblings. Born in 1889 in Norwood and raised in Hilton, he attended Richmond Public School in Keswick before joining his oldest brother in the Broken Hill mines. It was there he earned his electrical tickets, and when WWI broke out he was working as an electrician in the NSW Riverina. (For more on Wally's childhood see Appendix A from the *West Torrens Historian Newsletter*.)

Wally enlisted with the Light Horse out of Sydney in 1915 and served in southern Egypt and at the Battle of Romani before transferring to the Australian Flying Corps' No. 1 Squadron in late 1916. He quickly earned a reputation as a bloke who could fix just about anything. By war's end he was working with Jim Bennett on the twin Rolls Royce Eagle VIII engines of the monster Handley Page aircraft flown with devastating effect over Palestine by Captain Ross Smith.

Not surprisingly, when Ross Smith decided to enter the Great Air Race at the end of the war, he took his two highly experienced air mechanics with him. Despite rapid advances in WWI, aircraft were still incredibly rudimentary: made of wood, wire and fabric; open cockpits; little more than a compass for navigation. With no support crew, and indeed very few airfields after India, the role of the mechanics was pivotal. They often worked all night, with spotlights under the open sky, on ingenious repair work which included Wally's idea of fixing a cracked engine induction pipe with chewing gum.

Following the war and the 1919 Great Air Race, Wally married his sweetheart Helena Alford and moved to Sydney, where he used his quarter share of the £10,000 prize money to buy a garage in Bondi. He began barnstorming with a young pilot by the name of Dave Smith in the early 1930s and even attempted a flight from Australia to England, but after a couple of near-fatal crashes he dismissed the venture as a silly idea. He served for many years as chief engineer with Airlines of Australia and during WWII worked in the manufacture of parachutes for the war effort.

After Helena's death in the 1950s, Wally was involved in a car accident and later moved back to Adelaide to live with his brother Arthur in Bennett St, Hilton. He died of heart failure at the age of 79 in 1968 and his death was noted with seven brief sentences on the front page of the *Adelaide Advertiser* (see Appendix B).

The final part of his entry in the *Australian Dictionary of Biography* (<http://adb.anu.edu.au/biography/shiers-walter-henry-8419>) sums up Wally's personality: "Friends and acquaintances remember Wally as a short nuggety man of great character who had a strong will and abrupt manner. He was generous to a fault, had a disregard of material gain and placed a high value on comradeship."

Wally was buried without so much as a RAAF bugler in attendance in the military graves section of Centennial Park Cemetery. There is no marker to distinguish his role in one of the greatest feats in the history of aviation. This is in stark contrast to his fellow Vimy mechanic Jim Bennett in Victoria, who tragically died in a plane crash with Sir Ross Smith in 1922 and was honoured with an impressive memorial that can still be seen on the St Kilda Esplanade in Melbourne.

With the centenary of the Vickers Vimy crew's victorious Adelaide landing coming up on 23 March 2020, I commend the place-naming proposal put to council by Wally's great nephew Gary Shiers, and urge you to consider recognising a former local resident who achieved so much but remains a largely unknown South Australian. I should also note that in the past 18 months, following the launch of my novel *Long Flight Home* which tells the story of the Air Race through Wally's eyes, I have spoken to many community groups in the West Torrens Council area. Locals are rightly proud of their association with Wally.

Thank you for the opportunity to put forward a submission. Please don't hesitate to contact me via [lainieanderson@internode.on.net](mailto:lainieanderson@internode.on.net) should you require further information.

Yours sincerely

Lainie Anderson

Mr. Shiers

Mr. Walter Henry Shiers, sole survivor of the first flight from England to Australia, died in Adelaide yesterday. He was 79.

Mr. Shiers was a flight engineer for the brothers Sir Keith Smith and Sir Ross Smith in the four-man crew of the Vickers Vimy which reached Darwin from London on December 10, 1919.

The fourth member of the crew was Sgt. J. M. Bennett.

Their plane is now displayed at Adelaide Airport.

In World War I, Mr. Shiers joined the 1st Light Horse in Sydney and saw action in Egypt, where he transferred to the Australian Flying Corps.

After the historic flight he joined Airlines of Australia in Sydney and became the former airline's chief engineer.

He returned to Adelaide in 1965 to live with his brother Mr. Arthur Shiers in Bennett street, Hilton.

## Council Policy - Asset Naming

### 1. Introduction

- 1.1. A Council has the power under section 219 of the *Local Government Act 1999* (the Act) to assign a name to, or change the name of a:
  - 1.1.1 public road
  - 1.1.2 private road
  - 1.1.3 public place.
- 1.2. Council must assign a name to each public road created by land division.

### 2. Purpose

- 2.1. The purpose of this Policy is to:
  - 2.1.1 Provide a framework for selecting new and replacement names for assets in the City of West Torrens (CWT).
  - 2.1.2 Provide staff, the local community and developers with clear information on Council's requirements for the naming of assets.
  - 2.1.3 Ensure asset names are appropriate, will stand the test of time and preferably are of local or historical significance.

### 3. Scope

- 3.1. This policy applies to:
  - 3.1.1 All existing and proposed assets and public places in the CWT; including both public and private assets.
  - 3.1.2 All sealed and all formed public roads within the CWT.
  - 3.1.3 All formed private roads that are accessible to the public; including (but not limited to) roads within complexes such as hospitals and retirement villages.

### 4. Definitions

- 4.1. **Affected land owners** means:
  - 4.1.1 For the purposes of naming a road those people who own, reside in or occupy land adjacent to the road.
  - 4.1.2 For the purposes of naming a public place those people who own, reside in or occupy land within a 300m radius of the place to be named.
  - 4.1.3 An adjoining council.
- 4.2. **Asset** means a fixed item or facility used to satisfy a service potential or enabling the CWT to meet its corporate or community objectives. There are types of assets:
  - 4.2.1. Infrastructure including roads, bridges, footbridges, footpaths, bike paths, carparks, drainage, walkways, alleys, laneways, thoroughfares, stormwater and traffic infrastructure.

## City of West Torrens Council Policy - Asset Naming

- 4.2.2. Community assets including parks, playgrounds, sporting fields, monuments, community buildings and hubs.
- 4.2.3. Corporate assets including the Civic Centre, depot and other administrative buildings.
- 4.3. **Community** means the residents of the CWT.
- 4.4. **Developer** means a person, persons or company that has submitted a development application to Council.
- 4.5. **Land division** is a reference to the division of an allotment under the *Development Act 1993* or to the dealing with land under the *Roads (Opening and Closing) Act 1991* so as to open a road.
- 4.6. **Property owner** means the registered owner of the relevant parcel of land.
- 4.7. **Road** means a public or private street, road or thoroughfare to which public access is available on a continuous or substantially continuous basis to vehicles or pedestrians or both and includes:
  - 4.7.1. a bridge, viaduct or subway
  - 4.7.2. an alley, laneway or walkway.
- 4.8. **Private road** means a road that is on private property that is not under the control of Council.
- 4.9. **Public place** means an area that is used for a public purpose or is open to access by the public.
- 5. **Policy Statement**
  - 5.1. An asset or public place naming process may be initiated if:
    - 5.1.1. A request is received by the Council from the Department of Planning, Transport and Infrastructure (DPTI).
    - 5.1.2. A request is received by the Council from an affected land owner or their agent; or the community.
    - 5.1.3. Council resolves that a name change be investigated.
    - 5.1.4. The Administration determines it is in the public interest to investigate a change in name.
    - 5.1.5. Council or DPTI opens or forms a road or public place.
    - 5.1.6. Council receives an application for a land division.

## 5.2. General Principles

In the naming and renaming of assets and public places the following principles will be observed:

### 5.2.1. Uniqueness

- 5.2.1.1. An asset or public place will have only one name.
- 5.2.1.2. Duplicate names and similar sounding names within a suburb or locality will be avoided where possible. (e.g. Paice, Payce or Pace Roads).
- 5.2.1.3. Wherever practicable, road names will be continuous from the logical start of the road to the logical end of the road, irrespective of Council boundaries, landforms and intersecting roads.
- 5.2.1.4. Roads that are maintained by DPTI will be named by DPTI in consultation with the Council.

### 5.2.2. Name Sources

Names will be selected that are appropriate to the physical, historical or cultural character of the area concerned.

- 5.2.2.2. Preference will be given to names that refer to the history and development of the CWT; including pre-European settlement history.
- 5.2.2.3. Sources for road or public place names may include:
  - Names that have a historical significance to CWT.
  - Names of eminent or notable persons with a connection to the area.
  - Names which represent the CWT's multi-cultural community i.e. Asian, African and European names.
  - Landscapes or physical forms.
  - Achievements in arts, culture, education, law, medicine, research sciences and sports.
  - Thematic names such as flora, fauna, ships, etc.
  - Commemorative names.
  - Aboriginal names taken from the local Aboriginal language; only after consultation with the Aboriginal community and obtaining the appropriate permissions.
- 5.2.2.4. The origin and significance of each name should be clearly stated and subsequently recorded.
- 5.2.2.5. Council will not assign the name of a serving member of the Elected Council, or of the Administration, to an asset owned and/or controlled by the CWT.

### 5.2.3. Propriety

Names, which may be characterised as follows, will not be used:

- 5.2.3.1. Offensive or likely to give offence.
- 5.2.3.2. Incongruous - out of place
- 5.2.3.3. Could be construed as advertising particular commercial or industrial enterprise unless compliant with clause 5.5 of this Policy
- 5.2.3.4. Names of living persons, except in exceptional circumstances.

### 5.2.4. Form

- 5.2.4.1. Names will be reasonably easy to read, spell and pronounce in order to assist service providers, emergency services and the travelling public.
- 5.2.4.2. Unduly long names and names composed of two or more words or unusual combinations of words will be avoided.
- 5.2.4.3. When using geographical place or feature names, the form adopted in the [State Gazetteer](#) will be used.
- 5.2.4.4. Road or public place names will not contain abbreviated prefixes, with the exception of "St" in place of "Saint" and "Mt" in place of "Mount".
- 5.2.4.5. The possessive case will not be used e.g. "Smith's Road" would be "Smith Road".
- 5.2.4.6. The use of given names or both given names and surname or initials should generally be avoided.
- 5.2.4.7. The use of hyphens or other similar diacritical marks will be avoided. However, hyphens may be used when naming a road after a person with a hyphenated name.
- 5.2.4.8. Asset names should be practical for maps and plans when possible. Long street names should not be allocated to short roads as the inclusion of such names on street directories and other maps can result in name crowding difficulties for the mapmakers and confusion or uncertainty for the people using the maps.
- 5.2.4.9. Asset names will not contain a prefix or an additional suffix, e.g. "north" or "extension".

### 5.2.5. Road Type

Road names will include an appropriate road type suffix (e.g. Smith Road) conforming with the following guidelines:

- 5.2.5.1. The appropriate suffix will be selected from those approved at Appendix 1.
- 5.2.5.2. The suffix chosen will be compatible with the class and type of road and any geometry of the road form where appropriate e.g. a crescent shaped road takes the suffix Crescent (Cr).

## City of West Torrens Council Policy - Asset Naming

5.2.5.3 Road name signs will, as far as practicable, be placed at every road intersection.

**5.3. Consultation****5.3.1. Affected Land Owners**

If Council decides to change the name of a road or public place, such as a reserve, it will:

5.3.1.1 consult with affected parties at least two (2) months before the proposed change.

5.3.1.2 consider any representations made in response to the notice.

**5.3.2. Aboriginal Community**

Names taken from the local Aboriginal language may only be used only after consultation with the Aboriginal community and obtaining the appropriate permissions.

**5.3.3. Consultation with External Agencies**

5.3.3.1. The view of the proposed asset name change must be sought from the following external agencies, at least two (2) months prior to the name change being considered by Council:

- Australia Post
- Telstra
- SA Water
- SA Power Networks
- SA Ambulance Service
- Metropolitan Fire service
- State Emergency Services
- Local Government Association
- Royal Society for the Blind.

5.3.3.2. All responses from the consultation process will be considered by Council prior to the adoption of any proposed asset name change.

**5.4. Naming of Private Roads**

5.4.1. Private land owners are not obliged to seek Council approval for naming their roads. However, there is a public interest in encouraging private land owners and developers to select suitable names, preferably in accordance with this policy, and to obtain Council endorsement for the name.

5.4.2. When Council proposes to assign or change a private road name, in addition to the requirements at clause 5.3, it will also consult with the owner of the land over the proposed name and the signage requirements for the road.

**5.5. Temporary Naming Agreements for Sponsorship Purposes**

- 5.5.1. Lessees or licensees of Council owned property may seek to enter into naming rights agreements with other parties.
- 5.5.2. Lessees or licensees of Council property who wish to enter into commercial arrangements with third parties to temporarily rename a Council asset must, before entering into any agreement, seek and receive Council's consent for the proposed arrangement in writing. The request for consent should include the following information, the:
  - 5.5.2.1 existing name (if any) of the Council asset.
  - 5.5.2.2 proposed temporary name of the asset.
  - 5.5.2.3 commercial benefit of temporarily renaming the asset.
  - 5.5.2.4 proposed duration of the naming agreement.

**5.6. Council Decisions and Responsibility for Costs**

- 5.6.1. A report will be put before Council for a decision detailing the selected name(s), outlining compliance with clause 5.2 of this policy and providing any submissions made in the consultation phase of the naming process.
- 5.6.2. The cost of implementing any decision to assign or change a name, that being public notification and signage, will be borne by Council unless otherwise specified.
- 5.6.3. When a developer proposes to change the approved layout of a development or the layout adjacent to a development that will require a change of an existing or approved road or public place name(s), all costs and any associated public consultation requirements will be borne by the developer.

**5.7. Public Notice of Name Assignment or Name Change**

- 5.7.1. Council will give public notice of the assigning or changing of a road or public place name by publication on the Council website, in the Government Gazette and by notice in the Advertiser newspaper, as required under s219 of the Act. The public notice will include the date that the name change takes effect.
- 5.7.2. The date when an asset or public place name assignment or change takes effect shall be the date of gazettal or the date specified in the resolution of Council.

**5.8. Advise Relevant Parties of Name Assignment or Change**

- 5.8.1. Council will provide written notice of Council's decision of a name assignment or change to the Registrar-General, Surveyor-General and Valuer-General in accordance with s219 of the Act.
- 5.8.2. All parties identified in clause 5.3, as appropriate, will be notified in writing of the change of asset name and date of effect of the name change.
- 5.8.3. Council will update the Register of Public Roads as required by s231 of the Act .

City of West Torrens Council Policy - Asset Naming

## 5.9. **Signage**

5.9.1. Council will ensure signage is in accordance with the relevant Australian Standard is erected.

5.9.2. Signage may be erected during construction of a sub-division.

City of West Torrens Council Policy - Asset Naming

**Appendix 1. APPROVED ROAD SUFFIXES**

Two lists are provided in this Appendix:

- Suffixes for Open Ended Roads.
- Suffixes for Cul-de-sacs.

|             |     | <b>Open Ended Roads</b>  |
|-------------|-----|--|
| Alley       | Al  | A usually narrow roadway for people or vehicles in cities and towns. A minor roadway through the centre of city blocks or squares.                                     |
| Arcade      | Ar  | A passage having an arched roof, or any covered passageway, especially one with shops along the sides.   |
| Avenue      | Av  | A broad roadway, usually planted on each side with trees.  |
| Boulevard   | Bvd | A wide roadway, well paved, usually ornamented with trees and grass plots.   |
| Break       | Bk  | A vehicular access on a formed or unformed surface which was originally prepared as a firebreak.   |
| Bypass      | By  | An alternative roadway constructed to enable through traffic to avoid congested areas or other obstructions to movement.   |
| Circle      | Ci  | A roadway that forms a circle or part of a circle.   |
| Circus      | Cs  | A circular open place where many roads come together.  |
| Circuit     | Cct | A roadway enclosing an area.   |
| Crescent    | Cr  | A crescent or half-moon shaped roadway.  |
| Drive       | Dr  | A wide thoroughfare allowing a steady flow of traffic without many cross streets.  |
| Edge        | Ed  | A roadway constructed along the edge of a cliff or ridge.  |
| Entrance    | Ent | A roadway connecting other roads.  |
| Esplanade   | Esp | A level roadway, often along the seaside or a river.   |
| Fairway     | Fry | A short open roadway between other roadways.   |
| Formation   | Fmn | A formed surface, once a timber railway, which now provides vehicular access.  |
| Freeway     | Fwy | An express highway with limited or controlled access.  |
| Highway     | Hwy | A main road or thoroughfare. A main route.   |
| Interchange | Int | A highway or freeway junction designed so that traffic streams do not intersect.   |
| Lane        | La  | A narrow way between walls, building, etcetera. A narrow country or city roadway.  |
| Loop        | Lp  | A roadway that diverges from and rejoins the main thoroughfare.  |
| Mall        | Ml  | A sheltered walk, promenade or shopping precinct.  |
| Meander     | Mr  | A sinuous winding roadway, wandering at random through an area or subdivision.   |
| Parade      | Pde | A public promenade or roadway which has good pedestrian facilities along the side.   |
| Parkway     | Pwy | A roadway through parklands or an open grassland area.   |
| Pass        | Ps  | A roadway connecting major thoroughfares or passing through hills.   |
| Path        | Pt  | A roadway usually used for pedestrian traffic.   |
| Promenade   | Prm | A roadway-like avenue with plenty of facilities for the public to take a leisurely walk. A public place for walking.   |
| Quays       | Qs  | A roadway leading to a landing place alongside or projecting into water.   |
| Ramble      | Ra  | A roadway that meanders from place to place.   |
| Road        | Rd  | A place where one may ride. An open way or public passage for vehicles, persons and animals. A roadway forming a means of communication between one place and another. |
| Rotary      | Rty | An intersection of two or more carriageways at a common level where all traffic travels around a central island.   |
| Row         | Rw  | A roadway with a line of professional buildings on either side.  |
| Spur        | Sp  | A minor roadway off at less than 45 degrees.   |

|                           |     |   |
|---------------------------|-----|---|
| Street                    | St  | A public roadway in a town, city or urban area, especially a paved thoroughfare with footpaths and buildings along one or both sides. |
| Terrace                   | Tce | A roadway usually with houses on either side raised above the road level.   |
| Track                     | Tk  | A roadway with a single carriageway.  |
| Trail                     | Trl | A roadway through a natural bushland region.  |
| Turn                      | Tn  | A roadway containing a sharp bend or turn.  |
| Vista                     | Vs  | A road with a view or outlook.  |
| Walk                      | Wk  | A thoroughfare with restricted vehicle access used mainly by pedestrians.   |
| Way                       | Way | An access way between two streets.  |
| <b>Closed Ended Roads</b> |     |   |
| Close                     | Cl  | A short enclosed roadway.   |
| Court                     | Ct  | A short enclosed roadway.   |
| Courtyard                 | Cy  | An enclosed area.   |
| Cove                      | Ce  | A short enclosed roadway.   |
| Cross                     | Cro | A roadway forming a "T" or cross.   |
| Elbow                     | El  | A roadway containing a sharp bend or turn.  |
| Gardens                   | Gns | A roadway with special plantings of trees, flowers, etcetera, and often leading to a place for public enjoyment.                      |
| Green                     | Grn | A roadway often leading to a grassed public recreation area.  |
| Grove                     | Gr  | A roadway which often features a group of trees standing together.  |
| Mews                      | Me  | A roadway having houses grouped around the end.   |
| Place                     | Pl  | A short sometimes narrow enclosed roadway.  |
| Plaza                     | Pa  | A roadway enclosing the four sides of an area forming a market place or open space.   |
| Retreat                   | Rt  | A roadway forming a place of seclusion.   |
| Square                    | Sq  | A roadway bounding the four side of an area to be used as open space or a group of buildings.   |
| View                      | Vw  | A roadway commanding a wide panoramic view across the surrounding areas.  |

## 17.2 Black Spot Program Nominations for 2021/22

### Brief

To provide Council with a report on the analysis of the latest injury crash data from the Department of Planning, Transport and Infrastructure and nominations for black spot funding for 2021-2022.

### RECOMMENDATION(S)

It is recommended to Council that:

1. The report on the analysis of the latest injury crash data provided by DPTI be received.
2. The Administration proceed to finalise the analysis of the crash data and to submit nominations, where appropriate, for black spot funding for locations which are able to meet the eligibility criteria specified by DPTI.
3. The Administration write to DPTI to provide an assessment of the crash data relating to local street junction or intersection with main roads and, where appropriate, seek DPTI action to prioritise amelioration measures as soon as possible.

---

### Introduction

Each year, the Department of Planning, Transport and Infrastructure (DPTI) provides Council with crash maps (personal injury and fatal crashes) showing the locations which meet the criteria for black spot funding. The latest DPTI data for the 5-year period 2015 to 2019 (inclusive) has been provided to Council recently, with an invitation to Council to submit nominations for black spot funding projects for 2021-2022 (**Attachment 1**). The closing date for nominations is 16 October 2020.

### Discussion

The minimum eligibility criteria for black spot nominations for discrete sites (e.g. junctions, intersections or short road section) is at least 3 casualty crashes over a 5-year period. There is also an eligibility criteria for roads greater than 3 km in length, which generally does not apply to the City of West Torrens.

The latest DPTI maps provided show: (1) the overall injury and fatal crashes (all crashes) and; (2) a specific black spot location map which identifies discrete sites that meet the criteria as a black spot.

In terms of the process, using the DPTI data provided, Council would then investigate each of the discrete sites identified and consider amelioration measures that may address the crash issue. The amelioration measures are then assessed and evaluated using the spreadsheet for Benefit Cost Ratio (BCR) analysis provided by DPTI. The spreadsheet provides factors in the formula, such as a matrix for treatment reduction percentages, cost of crashes (based on severity) etc. The eligibility criteria is a minimum BCR of 1.5 for amelioration measures nominated.

DPTI would then consider the list of projects submitted by all councils and then use the BCR to rank and prioritise projects, in terms of their safety benefit to the community as a whole. The success or otherwise of obtaining funding depends on how Council's nominated projects measure against projects nominated by other councils in South Australia for that particular year.

The City of West Torrens has been reasonably successful in obtaining black spot funding in recent years, for example for the construction of the roundabout at George Street/Dew Street Thebarton (completed in 2018) and the raised threshold intersection upgrade at George Street/Albert Street Thebarton (completed in 2019).

If successful with the funding, Council would then proceed with detailed design for the project, with the construction generally to be completed in the proceeding financial year.

Due to the typical random nature of crashes, a location which meets the criteria this year may not meet the criteria in the following year. It should also be noted that some discrete sites will still appear in the latest DPTI data, even though they have been upgraded with funding from previous black spot programs. This is due to the rolling nature of 5-year crash data, where some of the crashes from previous years, prior to the upgrade occurring, will still be included. Eventually, these upgraded sites should drop off from the list.

There are also some discrete sites which appear as black spot locations but which may not warrant further treatment, for example, if roundabout controls or traffic signals are already present. For these sites, regular monitoring is normally undertaken or some further minor signage or line marking may be implemented or SA Police monitoring may be requested.

### **Council roads**

The latest DPTI crash data identify the following sites as meeting the black spot criteria (ie minimum of 3 casualty crashes over the 5-year period 2015 to 2019).

#### **George Street/Albert Street, Thebarton**

5 casualty crashes were recorded between October 2015 and June 2019.  
The intersection was upgraded as a black spot funded project in July 2019.  
Monitoring is recommended.

#### **George Street/Dew Street, Thebarton**

3 casualty crashes were recorded between February 2015 and September 2017.  
A roundabout was implemented as a black spot funded project in September 2018.  
Monitoring is recommended.

#### **West Street/North Parade, Torrensville**

4 casualty crashes were recorded between July 2017 and September 2019.  
The Administration could consider a new roundabout at this location.  
This location will be nominated for black spot funding for 2021-2022.

#### **Galway Avenue/Grove Avenue, Marleston**

3 casualty crashes were recorded between September 2015 and August 2017.  
There has been no reported casualty crashes at the roundabout since 2017.  
The Administration will continue to monitor safety at the roundabout.

#### **Mooringe Avenue/Deeds Road, North Plympton**

3 casualty crashes were recorded between December 2016 and November 2019.  
2 of the 3 crashes were rear end crashes on Mooringe Avenue. The Administration will review options to address the crash issues (such as right turn sheltered lanes in Mooringe Avenue) and, if able to meet the BCR criteria, will submit a nomination for this location.

#### **Stonehouse Avenue/Morphett Road, Novar Gardens**

4 casualty crashes were recorded between March 2017 and September 2019.  
Given the high traffic flows on both roads, there may be a settling in period before users become more familiar with this roundabout control. It is noted that 3 of the crashes involved the southbound approach. The Administration will review if additional signage or line marking may be required to address this specific approach as part of Council's traffic management works.

#### **Carlton Parade/Wainhouse Street, Torrensville**

3 casualty crashes were recorded between July 2018 and September 2019 and all involved a cyclist being hit by a car at the roundabout. The Administration will investigate the use of additional bicycle awareness signs on all approaches of the roundabout as part of Council's traffic management works.

**Road Section: Military Road (Barcoo Road north to Council boundary), West Beach**

3 casualty crashes and 1 fatal crash were recorded between February 2015 and June 2019.

The fatal crash appeared to involve an out of control vehicle crashing into two cyclists, a pedestrian on the adjacent footpath and a stobie pole.

The 3 casualty crashes involved cyclists. 2 crashes were from 2015 which, in next year's data, will no longer be on the updated list. Notwithstanding that, given that Military Road is very popular with cyclists, the Administration could review options to improve cyclist awareness along this section of road either via the black spot program (if the eligibility criteria and BCR criteria can be met) or via Council's traffic management works. It may also be necessary to coordinate any proposed works with the City of Charles Sturt, given that Military Road traverses both council areas.

**Road Section: Beckman Street, Plympton**

4 casualty crashes were recorded between January 2015 and April 2019.

2 crashes were from 2015 which, in next year's data, will no longer be on the updated list. The types of crashes recorded, ie 1 involving reversing out of a residential driveway and 2 rear end collisions on Beckman Street, suggest that there may be limited opportunity to develop measures to address these crashes. Beckman Street is a sub-arterial type road with a wide carriageway. Notwithstanding that, the Administration would review line marking to improve traffic awareness along the road. If the options considered are able to meet the black spot requirement, then a nomination will be submitted. Otherwise, the Administration could look at implementing minor line marking or signage measures as part of Council's traffic management works.

**DPTI main road intersections**

The DPTI data also identify locations where 3 or more injury crashes have been recorded over the 5-year period (black spots) which involve local Council roads where they intersect with the DPTI roads. Usually, these locations are left to DPTI to review and analyse, given that they involve main roads controlled by DPTI. However, a brief review of these intersections has been undertaken (ignoring those which are traffic signalised) and the following comments provided.

**Smith Street/Port Road, Thebarton**

4 casualty crashes were recorded. 2 crashes were between vehicles on the main road. The other 2 crashes involved vehicles exiting Smith Street and failing to give way to a pedestrian and a cyclist. A request could be submitted to DPTI to request the installation of a Give Way sign on Smith Street (since the use of a Give Way sign for a T-junction is outside of the requirements of the Code).

**Rose Street/James Congdon Drive, Mile End**

3 casualty crashes were recorded. 1 crash was between vehicles on the main road. The other 2 crashes involved vehicles turning right out from Rose Street. Next year's crash data will be further reviewed to see if the exit from Rose Street remains an issue.

**Rose Street/South Road, Mile End**

3 casualty crashes were recorded. 2 crashes were between vehicles on the main road. Only 1 crash involved a vehicle turning right out from Rose Street and failing to give way to a cyclist on the main road.

**Huntriss Street/Henley Beach Road, Torrensville**

3 casualty crashes were recorded. 1 crash involved a motor cyclist allegedly hitting the kerb or median along the main road. 2 crashes involved drivers turning left out from Huntriss Street failing to give way to the cyclist on the main road.

DPTI could be requested to use green coloured pavement for the section of bicycle lane across the side street junction (as is quite commonly done in recent times) to address the cyclist awareness issue. This could be investigated further via other programs, such as the DPTI Operation Moving Traffic, or as part of the black spot program.

East Street/Henley Beach Road, Torrensville

5 casualty crashes were recorded. 1 crash involved a pedestrian on the main road (inattention by the pedestrian), 2 crashes involved vehicles turning right turn out from East Street, 1 involved a right turn on the main road and the other was due to a driver turning left out of East Street failing to give way to a cyclist on the main road. DPTI has recently reduced the speed limit on Henley Beach Road to 50 km/hr. The impact of this speed limit change over the next few years should be monitored to assess its impact on injury crashes.

DPTI could also be requested to use green coloured pavement for the section of bicycle lane across the side street junction to address the cyclist awareness issue.

Bagot Avenue/Henley Beach Road, Mile End

4 casualty crashes were recorded. 1 crash involved a driver turning in from the main road and failing to give way to a pedestrian. The other 3 crashes involved vehicles turning right out from Bagot Avenue onto the main road. DPTI has recently reduced the speed limit on Henley Beach Road to 50 km/hr. The impact of this speed limit change over the next few years should be monitored to assess its impact on injury crashes.

Hardys Road/Henley Beach Road, Underdale

4 casualty crashes were recorded. 2 crashes were between vehicles on the main road. The other 2 crashes involved vehicles turning right out from Hardys Road onto the main road (failing to give way). Two of these crashes were from 2015 which will no longer be on the updated list for next year. Next year's crash data will be further reviewed to see if the exit from Hardys Road remains an issue.

Lysle Street/Henley Beach Road, Brooklyn Park

4 casualty crashes were recorded and all involved vehicles turning right out from Lysle Street to the main road. Two of these crashes were from 2015 which will no longer be on the updated list for next year. Next year's crash data will be further reviewed to see if this specific type of crash remains an issue. Options, such as banning the right turn out, could be considered in consultation with the community as part of a LATM project, if this issue remains of concern.

Fulham Park Drive/Henley Beach Road, Lockleys

3 casualty crashes were recorded and all involved vehicles turning right out from Fulham Park Drive to the main road. Options, such as banning the right turn out, could be considered in consultation with the community, if this issue remains of concern.

May Terrace/Sir Donald Bradman Drive, Lockleys

4 casualty crashes were recorded. The specific crash details are missing from the database provided by DPTI. This information will be sought from DPTI for further review.

Press Road/Jenkins Street/Marion Road, Richmond

7 casualty crashes were recorded. 4 crashes were between vehicles on the main road. 3 crashes involved vehicles turning right out from Press Road into Marion Road. Options, such as banning the right turn out, could be considered in consultation with the community as part of a LATM project, if this issue remains of concern.

Ralph Street/Craig Street/Marion Road, Richmond

3 casualty crashes were recorded. 2 crashes involved vehicles hitting parked vehicles. Parking controls could be considered by Council near the intersection to address the parked vehicle crash matter.

Hawson Avenue/Laverack Road/Marion Road, North Plympton

4 casualty crashes were recorded. 1 crash was a collision on the main road. 2 crashes involved vehicles turning right out from Hawson Avenue and 1 crash from Laverack Road. Next year's crash data will be further reviewed to see if the exit from Hawson Avenue or Laverack Road remains a concern.

Marleston Avenue/Hare Street, Ashford

3 casualty crashes were recorded. 2 crashes were between vehicles on the main road. 1 crash involved a vehicle exiting from Marleston Avenue.

Marleston Avenue/Anzac Highway, Ashford

4 crashes were recorded. 2 crashes were between vehicles on the main road. 2 crashes involved vehicles turning out from Marleston Avenue. Next year's crash data will be further reviewed to determine if the exit from Marleston Avenue remains a concern.

Everard Avenue/Anzac Highway, Keswick

7 casualty crashes were recorded. 6 crashes were right turn or right angled collisions to and from Anzac Highway. DPTI have recently altered the junction and banned the right turn out from Everard Avenue. Next year's crash data will be further reviewed to determine if the exit from Everard Avenue remains a concern.

Garden Terrace/Holbrooks Road, Underdale

3 crashes were recorded. 1 involved a collision between vehicles on the main road. 1 involved an incorrect turn by a bus. 1 crash involved a vehicle turning right out from Garden Terrace. Next year's crash data will be further reviewed to determine if the right turn out of Garden Terrace remains a concern.

Verran Avenue/Sir Donald Bradman Drive, Hilton

3 casualty crashes were recorded. All 3 crashes were between vehicles on the main road.

Dew Street/Henley Beach Road, Thebarton

5 casualty crashes were recorded. 4 crashes were between vehicles on the main road and 1 crash involved a vehicle exiting out from Dew Street.

**Climate Impact Considerations**

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

There is no direct climate impact in relation to this report.

**Conclusion**

An assessment has been undertaken by the Administration of the latest available injury crash data provided by DPTI in relation to nominations for the black spot funding program for 2021-2022. Several nominations could be considered for local road junctions, intersections and road sections. Further work will be undertaken to consider amelioration measures that may be appropriate and that would meet the eligibility requirements specified by DPTI and these nominations will be submitted to DPTI for consideration.

The Administration has also reviewed the injury crash data for local street junction and intersection with main roads. While this is normally assessed by DPTI, it is recommended that Council formally write to DPTI to request that DPTI consider amelioration measures for the locations that are of concern to Council and for these locations to be prioritised for action as soon as possible.

Mr Terry Buss  
Chief Executive Officer  
City of West Torrens  
165 Sir Donald Bradman Drive  
HILTON SA 5033

Dear Mr Buss

**2021-22 AUSTRALIAN GOVERNMENT BLACK SPOT PROGRAM – CALL  
FOR NOMINATIONS**

You are invited to submit infrastructure nominations aimed at significantly reducing serious road casualties on South Australian roads for funding in 2021- 22.

The South Australian Black Spot Consultative Panel will consider all nominations for funding under the 2021-22 Australian Government Black Spot Program. Projects that are not successful under that program will be considered by the Department of Planning, Transport and Infrastructure (DPTI) for State Government funding in 2021-22.

If you wish to re-nominate a project what was not approved in previous years, you may do so by re-submitting the project nomination, ensuring that the eligibility criteria are met, including use of the most recent 5-year crash information (2015-19) and an updated cost estimate.

The information required for the development of nominations can be obtained from the website <http://dpti.sa.gov.au/blackspot>. Project nominations need to be provided using the resources and tools available on this website – specifically the nomination form, program guidelines and eligibility criteria, crash information and justification tools.

Councils are encouraged to use the road crash maps and reports on the website, to identify crash locations within the council area. These maps are available from the "Council Crash Maps 2015-19" link on the website. You will need to enter the username and the password to access this information (note that this is confidential and is not to be made available to the general public).

For detailed crash information, please email to [DPTI.SABlackspots@sa.gov.au](mailto:DPTI.SABlackspots@sa.gov.au).

#15685876

Please complete all parts of the nomination form, and attach a copy of the BCR calculation spreadsheet, supporting historical crash data or the Road Safety Audit (RSA) report, cost estimate and available concept design. RSA based nominations must clearly address audit findings and include the report.

Projects that are not successful under the Australian Government Black Spot program can automatically be considered for State Government funding if Council wishes to do so. If Council wish to be considered for State Government funding, Council will be required to contribute one third of the total project cost.

Nominations are to be submitted by **5pm, Friday 16 October 2020**, as follows:

1. Please note we are using smartygrants this year and the online application form is available at <https://dpti.smartygrants.com.au/BS21-22>

OR

2. One original submitted by post

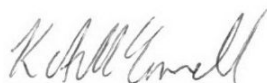

Naly Sim  
Road Safety Engineer  
Road and Marine Services Division  
Department of Planning, Transport and Infrastructure  
GPO Box 1533  
ADELAIDE SA 5001  
Australian Government Blackspot Program SA Nominations

Projects nominated on roads under the care, control and maintenance of DPTI shall be supported by the relevant DPTI section such as Traffic Services and Road Assets, as well as all concept plans and estimates developed in accordance with DPTI standards and estimating manual, prior to the project nomination.

Late or incomplete nominations will not be considered.

If you have any further queries regarding nominations please contact the Road Safety Infrastructure team via email [DPTI.SABlackspots@sa.gov.au](mailto:DPTI.SABlackspots@sa.gov.au).

Yours sincerely

Kerry Mc Connell

### 17.3 COVID-19 Arts and Culture Support Grants

#### Brief

The proposed COVID-19 Arts and Culture Grants program provides financial assistance to eligible organisations, groups and individuals impacted by COVID-19 in West Torrens. The grants recognise the relevant goals and values of the Government of South Australia's Arts and Culture Plan 2020 - 2024.

#### RECOMMENDATION(S)

It is recommended to Council that:

1. Approval be given to establish the COVID-19 Arts and Culture Grants program to assist eligible organisations, groups and individuals within the City of West Torrens.
2. Approval for \$55,000 as once off funding be provided to support the COVID-19 Arts and Culture Grants program (\$50,000 grants + \$5,000 marketing budget).
3. The COVID-19 Arts and Culture Grants funding program will conclude on 31 March 2021.
4. The Administration develops support material to ensure the grant application process is robust, transparent and appropriately promoted to the City of West Torrens community.

---

#### Introduction

At a Special Meeting of Council held 31 March 2020, a number of relief measures were approved by Council in respect of the impacts the COVID-19 pandemic is having on the West Torrens' community. A raft of measures were adopted by the Council which sought to provide relief to community organisations, businesses, residents and ratepayers.

The Arts sector has been severely impacted and disrupted by the COVID-19 pandemic. Jobs data from the Australian Bureau of Statistics, released on Tuesday 16 June 2020, demonstrates that COVID-19 job losses in Arts and Recreation in South Australia have been dramatic:

- One in three people have lost their job since 14 March 2020;
- Job losses increased in May rather than reducing;
- South Australia has a highest percentage of arts and recreation job loss and wage loss in the nation.

The Arts Industry Council of South Australia has suggested these figures are likely to be conservative as ABS data does not account for self-employed artists trading with an ABN **(Attachment 1)**.

(<https://aicsa.net.au/aicsa-calls-for-an-additional-10m-sa-state-govt-investment-in-survival-and-recovery/>)

The Administration has prepared a COVID-19 Arts and Culture Grants program to provide financial support to eligible organisations, groups and individuals directly affected by venue closures and a reduction in demand related to the COVID-19 pandemic.

It is important that COVID-19 recovery measures provided by local governments complement the stimulus and support measures provided by the State and Federal Government. As such, the City of West Torrens Arts and Culture Grants program aims to support a number of the goals and values identified in the Government of South Australia's Arts and Culture Plan 2019 - 2024 **(Attachment 2)**.

## Discussion

The City of West Torrens' Arts and Culture Grants Program will support:

1. Visual Artists
2. Performance Artists
3. Musical groups and solo musicians

### Goals

1. To empower West Torrens' makers and creators.
2. To promote the role of arts and culture in enriching the lives of West Torrens residents.
3. To amplify the strength in cultural diversity that characterises the artistic community in the City of West Torrens.

### Values

1. Visionary leadership – leadership for the arts and culture sector to be delivered with strong advocacy and sound investment.
2. Strategic collaboration – between artists, organisations and industries, and with communities to optimise resources and amplify strengths.
3. Embracing diversity – promoting inclusion and encouraging new voices and approaches across all demographics.
4. Courageous experimentation – open to new ways of working, entrepreneurial thinking, and harnessing digital transformation and future technologies.

Three grant categories will be offered:

1. Visual Art
2. Performance Art
3. Musical Groups and solo musicians

The activities that are funded must be presented / displayed in the City of West Torrens.

The table below details the funding categories that will be made available.

| Program                   | What Council will fund  | Funding available   |
|---------------------------|---|---|
| <b>1. Visual Art</b>      | Costs associated with materials used to produce income, such as: <ul style="list-style-type: none"> <li>• Canvas, framing materials, paint, pencils, ink, brushes, sketchbooks, easels, etc.;</li> <li>• Exhibition presentation - invitation printing, gallery fees (excludes catering);</li> <li>• Digital and physical marketing and promotion.</li> </ul> | Up to \$500 (excluding GST)<br><br>Available: \$10,000                              |
| <b>2. Performance Art</b> | Costs associated with presentation of works, such as: <ul style="list-style-type: none"> <li>• Venue hire (excludes catering);</li> <li>• Technical equipment;</li> <li>• Technical staff;</li> <li>• Online content development (web pages, mobile apps, audio and visual media);</li> <li>• Digital and physical marketing and promotion;</li> </ul>        | Matched applicant funding up to \$1,000 (excluding GST).<br><br>Available: \$20,000 |

|   |  |   |
|---|--|---|
| <b>3. Musical groups / Solo musicians / DJ's / Electronic Music Producers</b> | Costs associated with presentation of works, such as: <ul style="list-style-type: none"> <li>• Recording costs;</li> <li>• Venue hire (excludes catering);</li> <li>• Technical equipment (excludes instruments/consumables)</li> <li>• Technical staff;</li> <li>• Digital and physical marketing and promotion;</li> </ul> | Matched applicant funding up to \$1,000 (excluding GST).<br><br>Available: \$20,000 |
|---|--|---|

**To be eligible for funding applicants must:**

- Have an Australian Business Number (ABN);
- Be located within the City of West Torrens. Performing groups must include minimum 20% participation by West Torrens Residents.
- Have been practicing their chosen discipline for more than 12 months as evidenced by CV or other appropriate documentation.

Matched funding will not include funds received from state or federal government grants.

Preference will be given to applicants whose proposed activity will:

- Procure products and services from local suppliers in the City of West Torrens (quotes will be requested).

**The program will not support:**

- Organisations and individuals located outside the City of West Torrens.
- Groups that feature less than 20% participation by West Torrens Residents
- Groups or individuals with a political purpose;
- Traders associations and owners corporations (strata and company owned);
- Branches, franchisees or subsidiaries of larger companies;
- Employees of Australian, State and local government agencies and bodies, foundation or grant making bodies or those that have a primary focus on fundraising;
- Current City of West Torrens employees or immediate family members.

In addition, canvassing or lobbying of Elected Members or employees of the City of West Torrens in relation to any grant application is prohibited during the application process. The City of West Torrens reserves the right to reject any application that is ineligible or does not meet the eligibility criteria.

Applications will be registered online via SmartyGrants and assessed by City of West Torrens staff.

It is proposed that the grants will be presented in two rounds (\$25,000 available in each round) and completed by 31 March 2021. Funded activities must be completed by 30 June 2021.

It is proposed that the \$50,000 funding pool for this program come from the established COVID-19 relief/stimulus fund approved by Council.

## Climate Impact Considerations

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

There is no direct climate impact consideration in relation to this report.

## Conclusion

The Administration has developed a \$55,000 Arts and Culture Grants program to provide financial assistance that supports eligible arts organisations, groups and individuals directly affected by venue closures and a reduction in demand related to the COVID-19 pandemic to develop and present artistic works within the City of West Torrens. The program supports the community aspirations of City Prosperity and Community Life as presented in the Towards 2025 Community Plan.

## AICSA CALLS FOR AN ADDITIONAL \$10M SA STATE GOVT INVESTMENT IN SURVIVAL AND RECOVERY

JUNE 23, 2020

### AICSA calls for an additional \$10m SA State Govt investment in survival and recovery

#### AT LEAST ONE IN THREE ARTS WORKERS HAVE LOST THEIR JOB IN SOUTH AUSTRALIA

The latest jobs data from the Australian Bureau of Statistics, released on Tuesday 16 June, shows that COVID-19 job losses in Arts and Recreation in South Australia have been dramatic:

- One in three people have lost their job since March 14;
- Job losses increased in May rather than reducing;
- South Australia has a highest percentage of arts and recreation job loss and wage loss in the nation.

Additionally, these figures are likely to be conservative as ABS data does not account for self-employed artists trading with an ABN. Further analysis of the ABS data is available here: <https://tinyurl.com/ydzcesgr>

Gail Kovatseff, Chairperson of Arts Industry Council SA (AICSA) said today, "These figures are alarming, and they confirm what many in the arts and cultural sector intuitively knew already. Our industry is facing a major crisis."

Ms Kovatseff added, "Arts organisations and venues were some of the first to shut down in response to the COVID-19 pandemic; necessary social distancing requirements mean they will be some of the last businesses to completely reopen; and at least one in three people have lost their job in our industry in South Australia. The figures are even worse for low income women in our industry."

To date there has not been a substantive, general Federal Government package announced for the arts and cultural sector, and many workers in the sector have missed out on accessing JobKeeper. The impact of COVID-19 has come on the back of devastating cuts to the arts by the Federal Government since 2013.

"At a time when billions are being invested into jobs and COVID-19 economic recovery, the lack of Federal investment in a labour-intensive industry such as arts and culture is astounding. Recent research by The Australia Institute shows that for every million dollars invested in the arts you get nine jobs; compared, for instance, with construction where every million creates between 0.9 and 1.3 jobs", said Ms Kovatseff.

"The South Australia Government responded early with a \$2.5million package of emergency funding for independent artists and organisations, support to arts-run mental health initiatives, as well as a high level of communication with the sector and advocacy to the Federal Government. We thank the Government for this response which was one of the quickest in the nation", she noted.

However, AICSA believes the State Government should make an additional \$10 million investment in the survival and recovery of the South Australia's arts and cultural sector.

Representatives from AICSA made this case at the Legislative Council of South Australia's Budget and Finance Committee on Monday morning 22nd June.

In other Australian states, arts survival and recovery packages announced have ranged in the vicinity of \$50 million (New South Wales, \$6.63 per head of population), \$49.1 million (Victoria, \$7.72 per head of

AICSA calls for an additional \$10m SA State Govt investment in survival and recovery - AICSA - Arts Industry Council of South Australia

population), and \$42.5 million (Queensland, \$8.38 per head of population).

The arts and cultural sector in South Australia needs an immediate new investment of an equivalent size, a minimum of \$10 million (bringing the State's total COVID-19 arts response package to \$12.5 million, \$7.50 per head of population).

These funds should be directed towards five goals and priorities:

- 1) Enabling artists to continue to make artistic works in South Australia. Substantial new grants programs, commissioning funds and income relief have been a key feature of some State packages in the absence of such an initiative from the Federal Government.
- 2) Assisting organisations, venues and festivals to reopen in a way that is commercially viable whilst enabling them to mitigate risk, encourage audiences to return, and prioritise investment in new work by South Australian artists.
- 3) Assisting those who have lost their employment including many casual employees who were employed by statutory authorities and Government-owned entertainment venues who are not eligible for JobKeeper.
- 4) Strategies to encourage audience confidence and return, and to market the arts and cultural tourism.
- 5) Continuing to implement South Australia's new Arts Plan with additional investment.

"The arts industry both here and nationally is facing a dire crisis due to the impact of COVID-19, and government needs to act fast. Investment in the arts creates jobs, assists low income workers, contributes to other parts of the economy including tourism and hospitality, and keeps South Australia an attractive place to live. Arts and culture are very important to the experience, wellbeing, economy and brand of South Australia", said Ms Kovatseff.

Goals and values of the Arts Plan | Department of the Premier and Cabinet

The Arts and Culture Plan South Australia 2019-2024 aims to guide the growth of and investment in the state's leadership in the arts and cultural sector.

# Goals

1. To promote the role of arts and culture in enriching the lives of all South Australians.
2. To empower South Australia's makers and creators.
3. To champion Aboriginal and Torres Strait Islander arts and culture.
4. To amplify South Australia's signature strengths that define the character of the arts in the state.
5. To enhance the physical and organisational arts and culture infrastructure in South Australia.
6. To drive a connected approach to advocacy and future government investment in arts and culture.

# Values

1. Visionary leadership – leadership for the arts and culture sector to be delivered with strong advocacy and sound investment.
2. Strategic collaboration – between artists, organisations and industries, and with communities and governments to optimise resources and amplify strengths.
3. Embracing diversity – promoting inclusion and encouraging new voices and approaches across all demographics.
4. Courageous experimentation – open to new ways of working, entrepreneurial thinking, and

## ■Release of the Message Video "No more Hiroshima! No more Nagasaki!"

This year marks 75 years since the atomic bombings. In order for many people to reflect on and share in the will of the *hibakusha* for nuclear weapons abolition, Mayors for Peace has created "No more Hiroshima! No more Nagasaki!", a compilation of video messages.

Share this video on your city's social media account to help raise and spread public awareness throughout the world toward abolition of nuclear weapons!

## [Speakers (23 people)]

- (1) Ms. Yoshiko Kajimoto, survivor of the atomic bombing of Hiroshima
- (2) Mr. Yoshiro Yamawaki, survivor of the atomic bombing of Nagasaki
- (3) Mr. Kazumi Matsui, Mayor of Hiroshima, Japan
- (4) Mr. Tomihisa Taue, Mayor of Nagasaki, Japan
- (5) Ms. Izumi Nakamitsu, United Nations Under-Secretary-General and High Representative for Disarmament Affairs
- (6) His Excellency Mr. Gustavo Zlauvinen, President-Designate of the NPT Review Conference
- (7) His Excellency Mr. Syed Mohamad Hasrin Aidid, Chair of the Third Preparatory Committee for the NPT Review Conference
- (8) Mr. Gilles Carbonnier, Vice-President of the International Committee of the Red Cross (ICRC)
- (9) Ms. Beatrice Fihn, Executive Director of the International Campaign to Abolish Nuclear Weapons (ICAN)
- (10) 14 representatives from Executive Cities of Mayors for Peace:  
Biograd na Moru (Croatia), Des Moines (U.S.A.), Granollers (Spain), Hannover (Germany),  
Malakoff (France), Manchester (U.K.), Muntinlupa (Philippines), Volgograd (Russia),  
Ypres (Belgium), Bangkok (Thailand), Fremantle (Australia), Santos (Brazil),  
Sarajevo (Bosnia and Herzegovina), Geneva (Switzerland, a Member City in which the UNOG is located)

### ■ Mayors for Peace will host a webinar on peace

To mark 75 years since the atomic bombings, Mayors for Peace will host a peace education webinar with a core concept of “No more Hiroshima! No more Nagasaki!” on August 4. Participants will be young people in member cities both in and outside Japan, as well as their counterparts engaged in peace activities in Hiroshima and Nagasaki. They will study the current international situation surrounding nuclear weapons, give presentations on their activities, and have discussions with others. The webinar aims to stimulate youth-led peace activities in their cities in support of nuclear weapons abolition.

This webinar, titled “No more Hiroshima! No more Nagasaki! Future Leaders of Peace Activism”, will be livestreamed on YouTube on the day. Some time after the webinar, the video footage from the livestream will be available to watch from the link below.

▼ Visit the link below for details of the webinar (Mayors for Peace website):

## ■US Conference of Mayors Calls for Human-Centered Security in a Time of Global Pandemic

[June 30, 2020]

To build momentum for nuclear abolition, Mayors for Peace works with associations of local authorities around the world, including the United States Conference of Mayors (USCM), to support and cooperate with our activities. The United States Conference of Mayors is the official nonpartisan association of more than 1,400 American cities with populations over 30,000. Resolutions adopted at annual meetings become USCM official policy.

At the close of its 88th Annual Meeting, held virtually due to the COVID-19 pandemic, on June 30, 2020, the USCM Executive Committee unanimously adopted a sweeping resolution "Calling for Human-Centered Security in a Time of Global Pandemic." The new resolution calls on the President and Congress: to support United Nations Secretary-General Guterres' call for an immediate global ceasefire and international cooperation to address the COVID-19 pandemic; to reconceptualize security in human-centered terms, and to redirect funds currently allocated to nuclear weapons and unwarranted military spending to support safe and resilient cities and meet human needs; and to lead a global effort to prevent nuclear war and actively pursue a verifiable agreement among nuclear armed states to eliminate their nuclear arsenals.

The resolution was submitted by Mayors for Peace Vice-President Mayor Frank Cownie of Des Moines, Iowa and four co-sponsors. The USCM has adopted Mayors for Peace resolutions for 15 consecutive years.

▼ Full text of resolution with list of sponsors (Mayors for Peace website):

<http://www.mayorsforpeace.org/english/ecbn/resolution/20200630.html>

## ■ACA's interview with Mayors for Peace President has been published

Arms Control Association (based in Washington DC, US) had conducted an online interview with Mayors for Peace President and Mayor of Hiroshima Kazumi Matsui remarking 75 years since the atomic bombings. The article of the interview was included in July/August special issue of their monthly journal on non-proliferation and global security "Arms Control Today."

Cover of July/August issue of the "Arms Control Today"

In the interview, President Matsui stated: "The current global coronavirus pandemic is a transboundary crisis that touches us all. We are experiencing firsthand that we can confront and defeat common threats through solidarity and cooperation. Based on what we have learned from this experience, we must build a robust global coalition of citizens everywhere to address and solve global security challenges, especially nuclear weapons. We must not take action based on self-centered nationalism."

He also reinforced: "Mayors for Peace conveys the realities of the atomic bombings and works to increase the number of people who share in the *hibakusha*'s message. In this way, we can build a consensus among global civil society that the elimination of nuclear weapons is key to the peaceful future we need. This consensus will serve as the foundation for a collaborative international environment in which policymakers around the world can take decisive steps forward toward the total elimination of nuclear weapons."

Regarding younger generations, he expressed his expectation that: "they will start thinking about the preciousness of their daily lives, which are supported by rules based on mutual trust. Hopefully, they will then understand that this is exactly what peace is and think what they can do to preserve it and take action."

### <Des Moines, US>

#### **Des Moines Iowa Mayor Frank Cownie Proclaims “Back from the Brink: The Call to Prevent Nuclear War Day”**

(Report by Ms. Jacqueline Cabasso, the Executive  
Advisor for Mayors for Peace)

On June 22, 2020 Mayors for Peace Vice-President Mayor Frank Cownie of Des Moines, Iowa signed a proclamation declaring the day, “Back from the Brink: The Call to Prevent Nuclear War Day”, in solidarity with the growing Back from the Brink campaign.

Noting that “the United States is obligated under the Nuclear Non-Proliferation Treaty (NPT) to take concrete steps to eliminate its nuclear arsenal” the Proclamation concludes:

“Des Moines, Iowa calls on the United States to lead a global effort to prevent nuclear war by:

- renouncing the option of using nuclear weapons first;
- ending the sole, unchecked authority of any president to launch a nuclear attack;
- taking U.S. nuclear weapons off hair-trigger alert;
- cancelling the plan to replace its entire arsenal with enhanced weapons; and
- actively pursuing a verifiable agreement among nuclear-armed states to eliminate their nuclear arsenals.”

The Proclamation also calls on the United States to welcome the Treaty on the Prohibition of Nuclear Weapons.

## ■Regional chapter activities

### <German Chapter>

#### Flag Day of German Members of Mayors for Peace

<Report by Evelyn Kamissek, Office for International Affairs, the City of Hannover>

(Photos: courtesy of the City of Hannover)

On July 8, the Mayors for Peace flag was hoisted in front of many town halls in over 350 German cities. The Flag Day, an annual initiative by German members of Mayors for Peace since 2012, is a reminder of a legal opinion handed down by the International Court of Justice on July 8, 1996, concluding that even the threat of using nuclear weapons is an offence against international law. Flying the flag on this day signifies opposition to nuclear weapons and hope for a peaceful world.

Mayor Belit Onay of Hannover, a Vice-President City of Mayors for Peace and the Lead City of the German Chapter explains: "75 years after the dropping of the atomic bombs on Hiroshima and Nagasaki, some 13,400 nuclear weapons still threaten humankind. Nuclear arms control is in a deep crisis. We must therefore take the nuclear threat as seriously as climate change in the future. We, Mayors for Peace, are committed to

the worldwide abolition of nuclear weapons. We call for the accession of all states, including the nuclear powers, to the Treaty on the Prohibition of Nuclear Weapons adopted at the United Nations in 2017."

The celebration in the great hall of the New City Hall marked the beginning of the event series Peace 2020+ of the City of Hannover on the occasion of the 75th anniversary of the dropping of the atomic bombs on Hiroshima and Nagasaki. The Flag Day also included an interactive presentation "On the way to Global Zero" on milestones in nuclear disarmament efforts. Representatives of the Council, the Hiroshima Alliance, the German-Japanese Society, the German-Japanese Friendship Circle, the Peace Bureau Hannover and other civil society actors took part in the event.

### <UK and Ireland Chapter>

#### UK and Ireland Chapter webinar held to discuss progress, peace education developments and commemorating important anniversaries

<Report by Sean Morris, UK & Ireland Mayors for Peace Chapter Secretary>

The UK and Ireland Mayors, Provosts and Leaders for Peace Chapter held a webinar on the 3rd July to provide its member authorities and NGO groups with a progress report and to allow a discussion on how to commemorate important summer peace anniversaries. The meeting was the first opportunity, since the Covid-19 outbreak had created a lockdown of activity across the UK and Ireland, to discuss the development of Mayors for Peace.

The Chapter Secretary Sean Morris gave a detailed progress report on local, national, European and global Mayors for Peace activity. This included an appeal made to members to support local events commemorating the 25th anniversary of the Srebrenica massacre and the 75th anniversary of the Hiroshima and Nagasaki atomic weapon attacks. Sean's colleague Elena Tompkins provided a presentation on her 10 days placement earlier in the year working within the Hiroshima Mayors for Peace Secretariat and understanding how it presents the message of the *hibakusha*. Chrissie Waite and Juli Hammersley of Peace Partners concluded the webinar by providing a case study of their peace education programme which they have delivered with councils, schools, public institutions and community groups.

There are plans to hold a follow-up Chapter webinar in the autumn and to cooperate within other lead cities as the European Chapter of Mayors for Peace develops later this year.

### ■ Report by Executive Advisor

#### <UN Hosts Disarmament Lecture for Northeast Asian Students by Mr. Randy Rydell, the Executive Advisor for Mayors for Peace>

The UN Office for Disarmament Affairs (ODA) hosted a 90-minute virtual meeting on 11 June featuring a lecture by Mayors for Peace Executive Advisor Randy Rydell on the history, institutions, norms, processes, and challenges of disarmament.

(Photo: courtesy of UN Office for Disarmament Affairs)

This was the first of a series of training webinars for a Steering Committee of nine students from China, Japan, Mongolia and the Republic of Korea, in preparation for a two-day UN workshop on disarmament and nonproliferation issues later this year. UN staff in Beijing, Kathmandu, and New York, as well as from ODA and the UN's Department of Peacebuilding and Political Affairs, assisted in organizing the meeting.

The purpose of this UN initiative is to construct a common forum for youths to discuss peace and security in the region as a possible foundation for a future intergovernmental forum on these issues, while also advancing the disarmament agenda of UN Secretary-General António Guterres.

Rydell noted that young people comprise the largest generation in history; they represent an enormously important constituency of disarmament both today and over the years to come. He encouraged youths everywhere, regardless of their special interests, to get involved in promoting disarmament goals. He presented disarmament as a field rich with opportunities across the full spectrum of academic and professional specialties. He urged youths to engage in the following activities: read; network; train; write; and organize. He concluded, "Disarmament is one of the greatest causes in world history, in terms of its implications for all countries, all peoples everywhere, and future generations. Be part of it!"

For further information on ODA's training courses, see the office's "Disarmament Education Dashboard" at: <https://www.disarmamenteducation.org/index.php?go=education>.

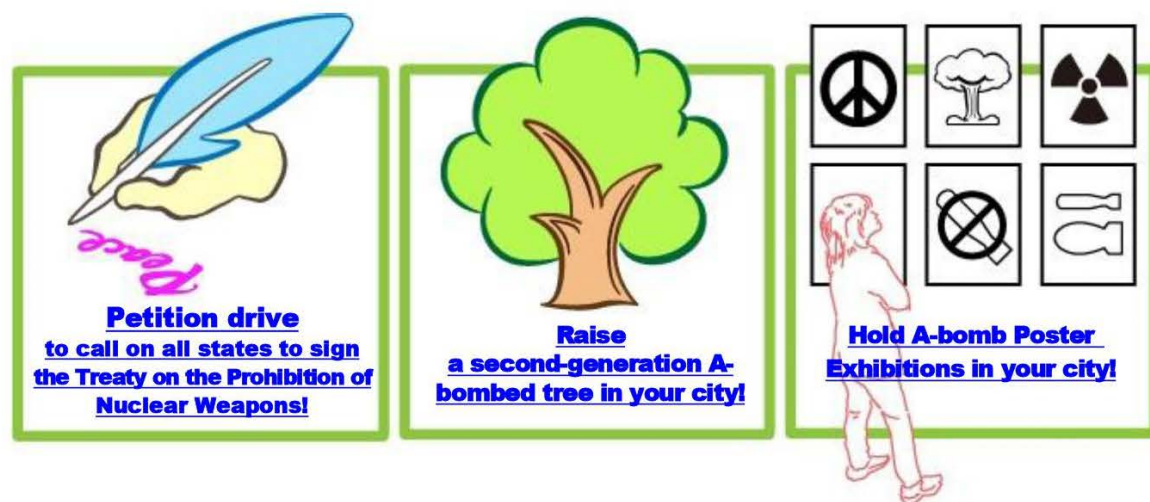

## Request to promote various measures based on the Mayors for Peace Action Plan (2017-2020)

At the 9th General Conference of Mayors for Peace held in Nagasaki in August 2017, we decided our Action Plan for up to the year 2020, aiming for lasting world peace. Together, we hope to make significant strides toward realizing this goal. Please promote all appropriate measures based on the Action Plan within your own municipality or regional group.

▼ Mayors for Peace Action Plan (2017-2020):

[http://www.mayorsforpeace.org/english/report/meeting/data/9th\\_meeting/Action\\_Plan\\_2017-2020\\_E.pdf](http://www.mayorsforpeace.org/english/report/meeting/data/9th_meeting/Action_Plan_2017-2020_E.pdf)

For example, you can promote the following measures:

On July 7, the 3rd anniversary of the adoption of the Treaty on the Prohibition of Nuclear Weapons, Fiji ratified the treaty. Botswana also ratified on July 15, bringing a total of 40 nations as the States Parties of the TPNW. 10 more to go to make the treaty enter into force! In order for the Treaty to become a fully effective legal instrument for nuclear abolition, we believe it essential for all states, including the nuclear-armed states and their allies, to join this Treaty. Through the above mentioned petition drive, let us spread our appeal for peace, which is the path toward a world free of nuclear weapons, and create a powerful movement to urge all states to participate in the Treaty as soon as possible!

In November 2019, the Executive Conference of Mayors for Peace decided to set the following three items as priorities for action until the end of 2020, the final year of the 2020 Vision.

1. Expand membership to support the agreed goals of Mayors for Peace, including the entry-into-force of the Treaty on the Prohibition of Nuclear Weapons

*For more information on “[Expanding membership](#)”*

2. Conduct peace education to raise awareness among future generations

*For more information on “[Promotion of peace education](#)”*

3. Strengthen support for existing projects to receive youths in Hiroshima and Nagasaki such as “The Youth Exchange for Peace Support Program”

*For more information on “[The Youth Exchange for Peace Support Program](#)”*

## ■ Call for input: examples of initiatives to foster peace-seeking spirit

The Mayors for Peace Secretariat has been seeking examples of peace education initiatives conducted by any organization (city hall/school/NGO, etc.) in Mayors for Peace member cities that are conducive to raising peace-seeking spirit among future generations. The Mayors for Peace Secretariat accepts reports on a rolling basis, so please send your report whenever your project is completed. The submitted reports will be posted on our website and in the Mayors for Peace News Flash as a source of information for other member cities that are planning to launch their own peace education program.

▼ Call for Input on the Mayors for Peace website:

<http://www.mayorsforpeace.org/english/ecbn/projects.html#section10>

## ■ Mayors for Peace member cities - 7,909 cities in 164 countries/regions

Thanks to your invaluable support, on July 1, we gained 3 new member cities, bringing our total membership to 7,909.

(Photo: courtesy of the City of Warsaw)

We welcomed the City of Warsaw, the capital of Poland as a member. Last August, President Matsui visited Warsaw and invited the city to join Mayors for Peace. Now we have 119 capital cities as our members.

From Germany, the Cities of Neumünster and Teupitz joined thanks to the continued efforts of Hannover, a Vice President and Lead City.

Mayors for Peace aims to expand its membership to foster international public support for the realization of a world without nuclear weapons. Please help us reach the goal of 10,000 member cities by inviting your city's sister cities or neighboring cities which are not members yet to join. We encourage further initiatives to promote membership and can provide support from Hiroshima as needed. You can download recruitment kits (available in 10 languages) from our website (link below).

[http://www.mayorsforpeace.org/data/pdf/03\\_newmembers/2020/newmembers2007\\_en.pdf](http://www.mayorsforpeace.org/data/pdf/03_newmembers/2020/newmembers2007_en.pdf)

▼ Map of Member Cities:

<http://www.mayorsforpeace.org/english/memberscity/map.html>

## ■ Request for payment of the 2020 Mayors for Peace membership fee

In order to facilitate future activities and strengthen the sense of solidarity amongst member cities, Mayors for Peace introduced an annual Membership Fee in 2015.

This year again, we ask each member city to pay a fee of 2,000 Japanese yen (about 19 USD/18 Euro as of March 18, 2020) per city. If your city has not paid their Membership Fee in previous years, we ask your city to pay the total amount owed for each unpaid year since 2015. The collected Membership Fees will be allocated toward new and existing projects listed on the Mayors for Peace Action Plan 2017-2020.

A request for payment of the 2020 membership fee was sent to each city by email on April 1. We deeply appreciate your kind cooperation.

▼ Request for the 2020 Mayors for Peace Membership Fee (Mayors for Peace website):

[http://www.mayorsforpeace.org/english/outlines/membership\\_fee.html](http://www.mayorsforpeace.org/english/outlines/membership_fee.html)

---

**■Peace news from Hiroshima**

(Provided by the Hiroshima Peace Media Center of the CHUGOKU SHIMBUN)

---

August 6, 2020, the 75th anniversary of the atomic bombing of Hiroshima, fast approaches. The city finds itself in circumstances nobody could have imagined around this time last year. Still, things have gradually begun moving ahead.

Among the buildings that survived the atomic bombing, the A-bomb Dome is the closest to the hypocenter. The second closest is the Rest House, which stands in Hiroshima Peace Memorial Park on the west side of the Motoyasu River. After undergoing renovations, the building reopened on July 1 after a two-and-a-half-year hiatus.

The Rest House was originally built as the Taishoya Kimono Shop in 1929. At the time of the bombing, the building was named the Fuel Hall. Among the 37 people who were working in this building 170 meters from the hypocenter, only Eizo Nomura, who was in the basement, survived. In 1982, the Hiroshima City government opened the Rest House as a tourist information office and a souvenir shop.

With the renovation work, the color of the building's exterior walls and the shape of its roof were made to more closely resemble the original appearance. The Rest House includes a tourist information office, a souvenir shop, and a rest-and-relaxation spot with a café. On the second floor, a piano that was exposed to the atomic bombing is on permanent display. The piano belonged to Akiko Kawamoto, who died in the atomic bombing at the age of 19. In the exhibit room on the third floor, visitors can get a sense of the Nakajima district, which later became Peace Memorial Park, and how shops and homes lined its streets. In the basement, Mr. Nomura's experience of miraculously surviving the bombing can be learned through his notes, paintings, and photographs taken after World War II.

According to Japan's Ministry of Health, Labour and Welfare, the number of Atomic Bomb Survivor's Certificate holders was 136,682 as of the end of March 2020. That number has fallen annually from its peak of more than 370,000 at the end of March 1981. While the COVID-19 pandemic will continue to impact many aspects of our lives, the new site for conveying memories of the atomic bombing to future generations will certainly play an ever more significant role.

## ■ Mayors for Peace collaboration with “The Hibakusha Appeal” Signature Campaign

Based on the Action Plan decided at the 9th General Conference in August 2017, Mayors for Peace is promoting a petition drive urging the nuclear-armed states and their allies to participate in the Treaty on the Prohibition of Nuclear Weapons. It was also decided that in doing so, Mayors for Peace would collaborate with “The Hibakusha Appeal”, a signature campaign launched by the *hibakusha* of Hiroshima and Nagasaki. The Mayors for Peace Secretariat will compile the number of signatures collected and present it to affiliates of the United Nations.

20MTI3171

**Government  
of South Australia**

**The Hon Stephan Knoll MP  
Member for Schubert**

Mr Michael Coxon  
Mayor  
City of West Torrens  
165 Sir Donald Bradman Drive  
HILTON SA 5033

Dear Mayor *Michael* Coxon

Thank you for your letter requesting a speed limit reduction to 60 km/h on Tapleys Hill Road, West Beach.

I am advised by the Department of Planning, Transport and Infrastructure (the department) all previous copies of correspondence you have supplied remain consistent to the current advice and forms accurate information as to the reasoning behind the existing speed limit of 80km/h being considered appropriate for this section of Tapleys Hill Road, West Beach.

The department confirms the objective of speed management is to create a system of speed limits which are compatible with the speed environment, contributing to road safety, mobility and amenity on public roads. Speed limits are determined and applied in accordance with the Speed Limit Guidelines for South Australia. Speed limits are set having regard to factors such as road function, abutting roadside development, and road and traffic characteristics. The fundamental principle in setting speed limits for a particular length of road, is that the speed limit should reflect the road safety risk to users, whilst maintaining the ability to reach a destination with ease.

Consistent with the Guidelines, an 80 km/h speed limit is applied to roads in partially built-up areas with limited adjacent development and direct abutting access, and a 60 km/h speed zone is applied to main roads in built-up areas, with direct access to abutting development.

As mentioned previously, apart from modifications to the existing Harbour Town access and the redeveloped service station on the corner of West Beach Road, there has been no other significant change to direct roadside access onto Tapleys Hill Road in this vicinity for the past 10 years.

Taking into account the minimal abutting roadside development, continuing low crash history, low number of direct access points and the function of Tapleys Hill Road as a high standard arterial road, the department considers the current 80 km/h speed limit is appropriate for existing roadside conditions and does not support a reduction in speed limit along this section of road at this time.

**Minister for Transport, Infrastructure and Local Government  
Minister for Planning**

Roma Mitchell House Adelaide SA 5000 | GPO Box 1533 Adelaide SA 5001 DX 171  
Tel 08 7109 8430 | Email [ministerknoll@sa.gov.au](mailto:ministerknoll@sa.gov.au)

The department also advises a fixed speed camera was installed on Tapleys Hill Road, West Beach within the 80 km/h zone during February 2012 enforcing northbound traffic. South Australia Police published expiation data shows a high driver compliance as a daily average exists of 0.01 per cent non-compliance to the speed limit. Hence, the majority of vehicles are currently complying with the existing 80 km/h speed limit.

Nevertheless, the department will continue to monitor this location and should the need for change become evident, the appropriate action will be taken in the interest of road safety.

I trust this information is of assistance.

Yours sincerely

**HON STEPHAN KNOLL MP**  
**MINISTER FOR TRANSPORT, INFRASTRUCTURE AND LOCAL GOVERNMENT**  
**MINISTER FOR PLANNING**

23 / 7 /2020

**From the Office of the Mayor**

13 July 2020

Hon Stephan Knoll MP  
Minister for Transport, Infrastructure and Local Government  
Level 12, 136 North Terrace  
ADELAIDE SA 5000

Dear Minister Knoll

**Request to re-consider a reduction to the speed limit - Tapleys Hill Road, West Beach**

I refer to this matter which has been raised on a number of occasions with you and previous State Government ministers.

My community and Council has asked that I again write to you to request that the speed limit of the residential stretch of Tapleys Hill Road, West Beach, be reduced to 60 km/h in the interest of the safety of those residents residing in that pocket of West Beach.

I can assure you that the residents along this section of Tapleys Hill Road are extremely concerned for their safety when accessing their properties and on their behalf I implore you and the Department to take the appropriate action to reduce the speed limit accordingly.

I would be amenable to meeting with the appropriate Department officer along with Council's representative and members of the community so that the Department can hear first-hand the issues that these residents are experiencing. I can be contacted on 0402 212 002 or [mcoxon@wtcc.sa.gov.au](mailto:mcoxon@wtcc.sa.gov.au)

Yours sincerely

**Michael S Coxon**  
Mayor

Government  
of South AustraliaThe Hon Stephan Knoll MP  
Member for Schubert

Mr Angelo Catinari  
Chief Executive Officer (Acting)  
City of West Torrens  
165 Sir Donald Bradman Drive  
HILTON SA 5033

Dear Mr Catinari

Thank you for your letter requesting a reduction of the speed limit on Tapleys Hill Road, West Beach.

Speed limits in South Australia are established in accordance with the Speed Limit Guidelines for South Australia. When speed limits are established or reviewed, various factors are taken into consideration such as abutting roadside development, road type, traffic volumes, sight distances and crash history.

When determining speed limits, it is often a challenging task to find the appropriate balance between motorists who want a higher speed zone and members of the local community who want lower limits. Consistency is an important aspect to road users' perceptions of a reasonable speed limit and will influence their willingness to comply.

I am advised by the Department of Planning, Transport and Infrastructure (the department) that apart from modifications to the existing Harbour Town access and the redeveloped service station on the corner of West Beach Road, there has been no other significant change to direct roadside access onto Tapleys Hill Road for the past 10 years.

Taking into account the minimal abutting roadside development, low crash history, low number of direct access points and the function of Tapleys Hill Road as a high standard arterial road, it is considered that the current 80 km/h speed limit is appropriate.

Please be assured the department will continue to monitor this location and should the need for change become evident, the appropriate action will be taken in the interest of road safety.

I thank you for raising this matter with me and trust this information is of assistance.

Yours sincerely

**HON STEPHAN KNOLL MP**  
**MINISTER FOR TRANSPORT, INFRASTRUCTURE AND LOCAL GOVERNMENT**  
**MINISTER FOR PLANNING**

Hon Stephan Knoll MP  
Minister for Transport, Infrastructure and Local Government  
Level 12, 136 North Terrace  
**ADELAIDE SA 5000**

Dear Minister Knoll

**Request to consider a reduction to the speed limit - Tapleys Hill Road, West Beach**

The matter of the speed limit along Tapleys Hill Road, West Beach has been deliberated by the City of West Torrens Council for some years, with its position being formalised with the State Government on a number of occasions, principally seeking a reduction to the currently gazetted speed limit of 80 km/hr (refer attached letters).

Of particular concern to Council is the section of Tapleys Hill Road, West Beach between Sir Donald Bradman Drive and Charles Veale Drive/West Beach Road, which is currently 80 km/hr.

On the western side of this section multiple residential and recreational land uses front the road together with important and well used pedestrian, cycle and public transport links and major access points that connect to the residential land areas of West Beach (namely Ingerson Avenue and Charles Veale Drive).

This section of road has historically created conflicts that have brought about a spate of serious vehicles accidents some of which have resulted in serious injuries and fatalities.

A determination of the current speed's appropriateness, taking into consideration the land uses, pedestrian, cycle and public transport links, along with many complaints from residents of the area, is now requested of the Government in order to improve the road safety for all.

In this regard, at its meeting of 6 August 2019, Council resolved that the Administration writes to you asking you to consider dropping the speed limit on the residential strip of Tapleys Hill Road, West Beach.

Your prompt consideration and favourable response of this request is appreciated.

Yours sincerely

**Angelo Catinari**  
**Chief Executive Officer (Acting)**

6 March 2009

COPY

Hon Patrick Conlon, MP  
Minister for Transport, Energy and Infrastructure  
GPO Box 2969  
ADELAIDE 5001

Dear Minister,

**Tapleys Hill Road – Request to consider a reduction in the speed limit**

Tapleys Hill Road, between Sir Donald Bradman Drive and Africaine Road, is currently zoned with an 80 km/hr speed limit.

In recent years, the land uses along this section of road have changed, particularly with the extensive developments on the Adelaide Airport land, including the Harbourtown shopping centre. With signalisation at the Harbourtown car park entrance and increased interaction between traffic generated by the developments and Tapleys Hill Road traffic, the appropriateness of retaining the 80 km/hr should be reviewed.

Sir Donald Bradman Drive, between May Terrace and Tapleys Hill Road, is one example where DTEI have reduced the previous speed limit of 80 km/hr to 60 km/hr, in response to the land use changes that have occurred on the Airport land.

Indeed, concerns about the "high" speed limit of this section of Tapleys Hill Road have been raised previously by residents, the most recent being in 2007 from a resident and an elected member. The concerns were forwarded by Council to DTEI's Metro Section by letter dated 24 January 2007 to seek DTEI investigation into a possible change to the speed limit.

In recent years, you would be aware of a number of major crashes that have occurred along Tapleys Hill Road, some of which have resulted in fatalities.

Council is of the view that, having regard to the land use changes that have occurred and the recent spate of crashes that have resulted in serious injuries or fatalities, that DTEI should consider a reduction to the speed limit on this section of Tapleys Hill Road.

In this regard, I advise that my Council recently resolved:

*"That the Administration writes to the Hon. Patrick Conlon MP, Minister for Transport Energy and Infrastructure and Local Members of Parliament requesting immediate action to alter the speed limit on Tapleys Hill Road from 80kph to 70kph, due to the high number of fatalities and serious accidents that occur on this road."*

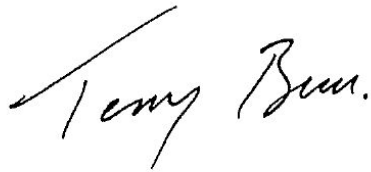

---

It would be most appreciated if you could consider this request to reduce the speed limit in Tapleys Hill Road, between Sir Donald Bradman Drive and Africaine Road, as a matter of urgency. A reduction in the speed limit to 70 km/hr or even 60 km/hr (as has occurred for Sir Donald Bradman Drive) would in our view, be appropriate.

Thank you for your consideration of this request and I look forward to your favourable response.

Yours faithfully

Ref: MRS14D0614

Mr Terry Buss  
Chief Executive Officer  
City of West Torrens  
Civic Centre, 165 Sir Donald Bradman Drive  
HILTON SA 5033

Dear Mr Buss

Thank you for your letter dated 26 September 2014, to the Minister for Transport and Infrastructure, the Hon Stephen Mullighan MP, regarding the 80 km/h speed limit on Tapleys Hill Road between Sir Donald Bradman Drive and Africaine Road. As the matters you raise fall within my portfolio responsibility, Minister Mullighan has asked me to respond to you on his behalf.

There are many parties who have an interest in the prevailing speed limit. It is often a challenge when determining speed limits to find the appropriate balance between the motorists who want a higher speed zone and members of the local community who want lower limits.

The objective of speed management is to create a system of speed limits which are compatible with the speed environment, contributing to road safety, mobility and amenity on public roads. Guidance on how speed limits are determined and applied is provided in the *Australian Standard 1742 - 4 - Speed Controls*. Speed limits are set with regard to factors including adjacent roadside development, road type, vehicle volumes and sight distances.

The Department of Planning, Transport and Infrastructure (DPTI) advises that Tapleys Hill Road serves a strategically important role in the arterial road network and is classified as a High Frequency Public Transport Corridor, a major Cycling Route, a major Traffic Route, a Freight Route, and a Major Traffic Route under DPTI's "Functional Hierarchy For South Australia's Land Transport Network."

This section of the road has limited direct access and caters for a high volume of traffic, in excess of 45 000 vehicles per day. The existing 80 km/h speed limit applies from just south of Sir Donald Bradman Drive to north of Africaine Road, a distance of 2.7 kilometres.

Africaine Road is a primary access point for the nearby sailing club off Military Road as well as the caravan and holiday parks further along. Access to Harbourtown shopping outlet is controlled via traffic signals at West Beach Road.

In 2011, the speed limit was assessed along Tapleys Hill Road between Anzac Highway and Sir Donald Bradman Drive. The 60 km/h speed limit was extended at the southern end of Tapleys Hill Road to encompass the junction with Africaine Road. The remaining 80 km/h section to Sir Donald Bradman Drive was deemed appropriate.

In October 2014, DPTI officers again inspected this section of road and found that no additional accesses have been added to Tapleys Hill Road since the previous inspection.

Experience and research has demonstrated that arbitrarily imposed speed limits that are too low attract poor levels of compliance regardless of the level of enforcement. Ideally, limits should be set such that road users can readily understand the reasons for setting them at a particular level.

In setting speed limits, DPTI seeks to achieve a balance between a driver's reasonable understanding of the reasons for setting them at a particular level and an acceptable level of environmental amenity for all road users and abutting land use. The roadside development and surrounding land use along this section of Tapleys Hill Road is consistent with the application of an 80 km/h speed limit.

In view of the above, the existing 80 km/h speed limit is considered to be a correct reflection of the surrounding conditions at this time and DPTI has no plans to make changes to the speed limit on Tapleys Hill Road.

I trust that this information is of assistance.

Yours sincerely

**Hon Tony Piccolo MP**  
Minister for Road Safety

Dear Mayor Coxon,

**Proposed development at 1 Glenburnie Terrace, Plympton.**

Thank you for your letter of 16 July 2020 on behalf of the Council of the City of West Torrens regarding the proposed development of 1 Glenburnie Terrace, Plympton.

I acknowledge the Council's resolution of its strong opposition to the proposed development and note your comments that it represents a significant overdevelopment of the site and would have negative community impacts.

I am able to provide to you the following updates.

A preliminary conference was held at the Environment, Resources and Development Court on 20 July 2020. Future Urban Planning consultants who are acting for appellant advised at this conference that they seek to provide an amended proposal for consideration by the State Commission Assessment Panel (SCAP).

Both parties, the SCAP and the appellant, sought a six week adjournment to allow time for the SCAP to consider the amended development proposal.

The SCAP will review this amended proposal at a future meeting (date to be confirmed).

A conference at the ERD court is scheduled for 20 September 2020, where the SCAP's view on whether the matter is resolved (either through the amended proposal or conciliation) or should proceed to a hearing will be determined.

Thank you for your submission and again acknowledge Council's position in this matter.

I appreciate your drawing these concerns to my attention.

Yours sincerely,

A handwritten signature in cursive script that reads 'Michael Lennon'.

Dear Michael

**Re: Proposed development - 1 Glenburnie Terrace, Plympton**

As you would anticipate, Council has a significant amount of feedback from our Community in opposition to the proposed development at **1 Glenburnie Terrace, Plympton**.

In response, Council has considered the latest proposal and resolved at its meeting on 7 July 2020 that I write to the State Planning Commission Panel, the Environment, Resources and Development Court and any other relevant jurisdictions, to reiterate Council's strong opposition to the proposed development at 1 Glenburnie Terrace, Plympton, highlighting that the current proposals represent an overdevelopment of the site and create significant negative community impacts.

Therefore, Council respectfully requests that our position is noted and taken into consideration when determining the proposal.

Yours sincerely

## Nagasaki Peace Declaration

Exactly 75 years have passed since the day our city was assaulted by a nuclear bomb. Despite the passing of three quarters of a century, we are still living in world where nuclear weapons exist.

Just why is it that we humans are still unable to rid ourselves of nuclear weapons? Are we truly unable to abandon these dreadful weapons that so cruelly take lives without even allowing for dignified deaths and force people to suffer for entire lifetimes as the result of radiation?

Songwriter KINO Fumio lost his wife and children to the atomic bomb on that August ninth 75 years ago and went on to express his sadness and feelings about peace through music. In his memoirs he wrote the following:

*The tragedy that unfolded beneath the reddish-black mushroom cloud that spread out on that day is deeply embedded in my heart. The awful sight of hideously burned people covered in flames; innumerable corpses scorched until they were almost carbonized and spread around the debris like logs; women wandering about with leaden eyes; phantasmagoric visions such as this vividly revisit my mind as the day of August ninth comes around each year.*

In order to see that no one else ever goes through such a hellish experience, the *hibakusha*, or atomic bombing survivors, have fervently striven to inform us about what went on underneath that mushroom cloud. However, the true horror of nuclear weapons has not yet been adequately conveyed to the world at large. If, as with the novel coronavirus which we did not fear it until it began spread among our immediate surroundings, humanity does not become aware of the threat of nuclear weapons until they are used again, we will find ourselves in an irrevocable predicament.

This year marks the 50<sup>th</sup> year since the Nuclear Nonproliferation Treaty, or NPT, entered into force. This treaty, which promised that there would be no increase in nuclear-weapon states and that nuclear disarmament negotiations would be pursued in good faith, is extremely an important agreement for humankind. However, in the past few years motions by the nuclear-weapon states to go back on the promise of nuclear disarmament have been increasing, as evidenced by initiatives such as the scrapping of the Intermediate-Range Nuclear Forces Treaty, or INF Treaty. In addition to that, the development and deployment of newer, more sophisticated nuclear weapons and smaller, easier-to-use nuclear weapons, is proceeding. As a result, the threat of nuclear weapons being used is increasingly becoming real.

“Only 100 seconds remain.” In order to symbolize this state of crisis, the “Doomsday Clock”, an indicator of the time left until the earth’s extinction, was set at its shortest time ever this year.

Three years ago, the Treaty on the Prohibition of Nuclear Weapons was adopted by the United Nations. This treaty clearly states that nuclear weapons should be eliminated in accordance with the wishes of humanity. Among the nuclear-weapon states and countries under the nuclear umbrella there have been voices stating that it is too early for such a treaty. That is not so. Rather, nuclear arms reductions are far too late in coming.

It is now 75 years since the atomic bombings and the founding of the United Nations. Having reached this milestone, we should now be remembering that humanity itself promised to eliminate nuclear weapons in Resolution 1 of the United Nations General Assembly.

When the Pope visited Nagasaki last year, he said two things that may be keys. The first was that “To make this ideal (of a world of peace, free from nuclear weapons) a reality calls for involvement on the part of all.” The second was that “There is a need to break down the

(growing) climate of distrust.”

I hereby appeal to everyone around the world.

There are innumerable ways that we can become involved in working for peace.

This year, many people have been applauding the continued efforts by those in the medical profession to battle the novel coronavirus. In the same way, let us now applaud with heartfelt respect and gratitude the *hibakusha* who, while enduring physical and mental pain, have spoken out about their painful experiences for the 75 years since the time of atomic bombing until today in order to provide a warning to people around the world.

With this applause, an act of only 10 seconds or so, we are able to spread the circle of peace. The message of high school students which hangs in this tent today is also an expression of the desire for peace. Small acts such as the folding of paper cranes can convey feelings about peace as well. Let us proceed unceasingly and with conviction to lay down the roots for a culture of peace in civil society.

Young people of the world; the novel coronavirus disease, global warming and the problem of nuclear weapons share one thing in common, and that is that they affect all of us who live on this earth. Are nuclear weapons necessary for the world of the future that you will live in? Let us clear a path to a world free of nuclear weapons and walk down it together.

I appeal to the leaders of countries around the world.

Please aim to break down the growing climate of distrust and instead build trust through dialogue. At this very time, please choose solidarity over division. At the NPT Review Conference which is scheduled for next year, I ask that you show a workable way towards nuclear disarmament which includes reductions in such weapons by the nuclear superpowers of Russia and the U.S.A.

I now appeal to the Government of Japan and members of the Diet.

As a country that has experienced the horrors of nuclear weapons, please sign the Treaty on the Prohibition of Nuclear Weapons and see to its ratification at the earliest possible date. In addition, please examine the plan to establish a nuclear-weapon-free zone in Northeast Asia. And please adhere for eternity to the peaceful principles of the Japanese constitution, which includes the determination not to wage war.

Furthermore, in addition to providing increased support for *hibakusha* who are suffering from atomic bombing aftereffects, I ask that relief measures be extended to those who experienced the atomic bombings but have yet to be officially recognized as bombing survivors.

Nine years have now passed since the Great East Japan Earthquake and Tsunami. As a city that has experienced the threat of radiation, Nagasaki stands in support of the people of Fukushima as they strive towards recovery.

Along with everyone who reluctantly could not attend today's ceremony because of the novel coronavirus, we offer our heartfelt prayers for those who lost their lives to the atomic bomb and hereby declare that Nagasaki will continue to work tirelessly with Hiroshima, Okinawa, and all the people in places where great losses of life were experienced due to war and where peace is longed for, in order to bring about eternal peace and the elimination of nuclear weapons.

TAUE Tomihisa  
Mayor of Nagasaki

Mr Matt Pinnegar  
Chief Executive Officer  
Local Government Association of SA

Via email: [matt.pinnegar@lga.sa.gov.au](mailto:matt.pinnegar@lga.sa.gov.au)

Dear Matt

**Re: Council resolution - Safe Swap Spot service**

As you may be aware, my Council has been championing the 'Swap Spot' initiative. In short, this is the idea of establishing a location within our City that looks to promote e-commerce transparency amongst residents who are looking to make online purchases and exchange transactions in a monitored area. It is envisaged that the Safe Swap Spot will be located outdoors and will offer clear signage, visibility, parking availability and CCTV recording.

However, during the 'due diligence' process, the Local Government Mutual Liability Scheme advised us that they do not consider this activity to be 'core' Council business and has refused to provide the necessary coverage for the Council (in the event of an incident) to proceed.

Subsequently, my Council resolved at its meeting of 7 July 2020 that I write to you seeking the support of the LGA as local government's peak body, to lobby the Local Government Mutual Liability Scheme to provide support to councils that wish to provide a 'Safe Swap Spot' service for their communities.

Therefore, can you please pursue this matter (on our behalf) with the Local Government Association of South Australia and, in turn, lobby the Local Government Mutual Liability Scheme seeking their support.

I would be happy to discuss this matter with you at your convenience and can be contacted on mobile number 0402 212 002 or via email [mcoxon@wtcc.sa.gov.au](mailto:mcoxon@wtcc.sa.gov.au).

Yours sincerely

31 JUL 2020

[mayorcoxon@wtcc.sa.gov.au](mailto:mayorcoxon@wtcc.sa.gov.au)

Dear Mayor

Thank you for your letter of 15 June 2020 concerning support for conservation and land management stimulus funding. I appreciate the time you have taken to provide your Council's views on Pew Charitable Trusts request.

The COVID-19 pandemic has devastated the global economy and caused significant societal upheaval. In many parts of Australia, the impacts of the pandemic are happening at a time when businesses and communities were already suffering through one of the worst droughts in decades and following the most devastating bushfire event in recorded history.

The Australian Government is committed to ensuring that Australia's recovery from the devastating economic and societal impacts of these events is focussed on addressing unemployment and building a more dynamic and resilient economy and society.

The \$2 billion Bushfire Recovery Fund is supporting bushfire recovery in affected communities in addition to funds already available through disaster recovery measures. The \$1 billion Relief and Recovery Fund is supporting regions, communities and industry sectors disproportionately affected by the coronavirus crisis including agriculture, aviation, communication, fisheries, tourism and transport. The JobKeeper program is subsidising businesses impacted by COVID-19 to enable them to continue to pay their employees while they are not working.

We also recognise that these immediate relief measures must be followed by strategic investment in activities that will support longer-term economic recovery. The proposal put forward by the Pew Charitable Trusts, to fund jobs in conservation and land management as part of broader economic stimulus, is focussed on addressing unemployment, which will be an essential element to Australia's recovery, and the provision of co-benefits for conservation and land management increases its value proposition.

The Australian Government has engaged extensively with the Pew Charitable Trusts on their proposal to stimulate Australia's economic recovery by funding jobs. The Government is committed to a strong focus on recovery as we move through the COVID-19 crisis. I am advised that the Pew Charitable Trusts and its partners are working with agencies across all levels of government to explore how the proposal could specifically target areas of Australia that have been disproportionately affected by the effects of COVID-19, develop linkages with education and skills programs, and identify formal pathways to transition employees into ongoing employment at the conclusion of the program.

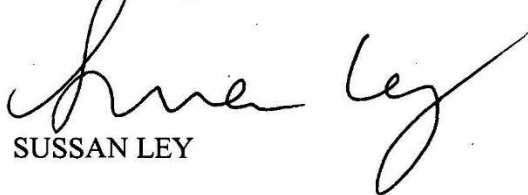

---

Parliament House Canberra ACT 2600 Telephone (02) 6277 7920

The Australian Government will consider all proposals in the context of their capacity to contribute positively towards addressing the breadth of budgetary and societal challenges, and the Government's priorities around employment, reopening businesses and building confidence.

Yours sincerely

SUSSAN LEY

15 June 2020

Hon David Speirs MP  
Minister for Environment and Water  
GPO Box 1047  
ADELAIDE SA 5001

Dear Minister

**Support for Conservation and Land Management Stimulus Funding**

A request was received from the Pew Charitable Trusts on behalf of over 70 conservation, farming and land management organisations seeking Council's support for a proposal for a jobs-rich investment conservation and land management stimulus package across Australia, as part of broader economic stimulus measures in the wake of Covid-19.

At its meeting on 2 June 2020, Council considered the request and noted:

1. In light of the current and anticipated impacts of COVID-19 across every sector of society, it is clear that decisive action and unprecedented investment is needed to temper the worst social and economic impacts of this crisis.
2. Over 70 farming and conservation groups around Australia, including Landcare, the National Farmers Federation, NRM Regions Australia, the Australian Land Conservation Alliance and the Australian Association of Bush Regenerators, have come together to call on state and federal government to invest in a jobs-rich conservation and land management stimulus package as part of the economic response to Covid-19.
3. Such a program presents important opportunities for safe, meaningful and socially beneficial work as part of the 'bridge to recovery', while leaving enduring benefits for the environment, tourism and farm businesses.
4. Local Governments play a pivotal role in delivering conservation and land management work, such as controlling weeds, protecting and restoring habitat, and managing public land and are ideally placed to manage a surge in effort for on ground conservation work

---

Council resolved to:

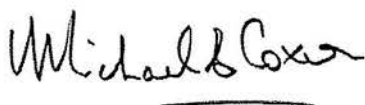

1. Express its support for State and Federal government investment in a jobs-rich conservation and land management stimulus package as part of the economic response to Covid-19.
2. Write to local Federal and State Members of Parliament expressing our support for this proposal and urging them to support it.

The briefing note provided by Pew Charitable Trusts supported by Council is attached.

The Local Government sector in South Australia is considering economic recovery as part of its 2020-21 budget deliberations to support local businesses and reinvigorate local economies. Councils such as West Torrens are also committed to environmental sustainability and this provides a unique opportunity for all levels of government to unite to provide a dual benefit in economic and environmental outcomes.

I encourage your support of this initiative.

Yours sincerely

**Michael Coxon**  
**Mayor**  
**City of West Torrens**

Encl

## Economic stimulus measures in the conservation and land management sector

In light of the current and anticipated impacts of COVID-19 across every sector of society, it is clear that decisive action and unprecedented investment is needed to temper the worst social and economic impacts of this crisis. We recognise and welcome the measures taken by federal and state governments to date, particularly in relation to the immediate health and economic threats posed by the rapid spread of the disease.

**We recognise that the road to recovery will be a long one, which will require each sector of society to contribute in its own way. We stand ready to help in any way we can.**

Right now, hundreds of thousands of workers have lost their job across the country and we write in the interest of assisting government to find ways to give these people security of employment over the next couple of years. It is in this spirit that we share these ideas on the role that the conservation and land management sector could play in immediate, medium and long-term economic stimulus efforts.

**Investment in a jobs-rich conservation and land management program, as part of broader economic stimulus measures, presents important opportunities for safe, meaningful and socially beneficial work during the period of economic crisis, while leaving enduring benefits for the environment, tourism and farm businesses.**

During the period of economic recovery, there is scope for tens of thousands of skilled and unskilled workers to be employed in the conservation and land management sector in roles that are:

- practical and labour intensive;
- located in both regional and metropolitan areas;
- appropriate for repurposing existing workforces which are under pressure, including tradespeople and workers in the tourism, fisheries and forestry sectors; and,
- will not create long-term structural commitments in the budget.

Practical conservation activities that could be undertaken across public and private land include:

- **a surge in weed control efforts**, focussed on containment and preventing cross-tenure spread;
- **river and wetland restoration**, including fencing, revegetation and erosion control;
- **national park infrastructure**, track maintenance and park management (fire, weeds, feral animals);
- **bushfire recovery and resilience activities**, including infrastructure repairs and habitat restoration;
- **invasive animal control**, including deer and pigs which impact on farming and threatened species;
- **tree planting and habitat restoration** in metropolitan, suburban, peri-urban and rural areas;
- **funding for private land conservation**, putting money in the hands of farmers and other land managers;
- **coastal habitat restoration and monitoring**, in partnership with the fishing industry and local communities;
- **plastics and marine debris clean up**, including research to inform future policy decisions; and
- **funding for Indigenous rangers** to deliver jobs directly to vulnerable communities using a proven model.

This investment would be low risk, especially if the planning occurs during the current 'lock down' as part of the stimulus measures. It would allow people who are newly unemployed or underemployed to have meaningful and secure employment for at least 12 months as soon as social distancing measures are eased, giving an immediate boost to economy confidence and security. In addition, this investment would:

- provide much needed income and economic confidence for bulldozer and other machine operators, weed-sprayers, shooting and trapping contractors, fencers, nursery growers, hardware suppliers, local and Indigenous land managers and bush regenerators;
- have significant economic multipliers, especially in regional communities, with work generated for local suppliers and hospitality businesses; and
- capitalise on existing organisational and land management capabilities across the non-profit sector, private sector and local, state and federal government.

**For more information, contact Pepe Clarke, Pew Charitable Trusts, 0420 425 471, [pclarke@pewtrusts.org](mailto:pclarke@pewtrusts.org)**

### Program design considerations

Developing this package early will allow for good **program design** and the opportunity to learn the lessons of past programs. If funding is committed, then the 'lock down' period is an opportunity to develop projects, seek partners and allow people to apply for positions, so that the program can hit the ground running. We would welcome the opportunity to collaborate with the government in the detailed design of this program.

The **geographic focus** of investment could be refined as the economic and social impacts of COVID-19 become clearer over time, including identification of regions experiencing particularly high unemployment, but could range from national park maintenance, bushfire recovery and river restoration in Western Sydney to weed control and coastal restoration in North Queensland communities affected by a rapid decline in tourism.

The program would provide an **immediate economic stimulus** with 90% of funding expended across the first two years. The remaining 10% can be spent in years three to four to **maintain and consolidate** the gains in any short-term stimulus program. Jobs could be directed to areas where existing funding can be leveraged, including through ongoing government programs and donations from the recent bushfire disaster.

### Indicative return on investment

Research into employment outcomes from stimulus spending in the United States (Edwards et al. 2013) found that conservation, land management and habitat restoration provide a **high return on investment**, relative to other sectors. The labour-intensive nature of the work, combined with relatively low capital and overhead costs, results in a high proportion of investment flowing to the employees and contractors delivering the work (and, in turn, to their families and businesses in their local community).

The ratio between salary, operational and capital costs will vary by activity, location and program, but we estimate that investment in conservation land management would support about **1,000 full-time equivalent positions per \$100 million invested** (including salaries, on-costs, operational and capital expenditure).<sup>1</sup>

We believe the conservation and land management sector – including non-profit organisations, local governments and state conservation agencies – can support delivery of up to \$4 billion in combined federal and state economic stimulus over the forward estimates, **employing up to 24,000 workers**. These positions would span a range of skill levels, from unskilled labourers to professional conservation land managers.

**Table 1. Illustrative employment benefits associated with a \$4 billion federal and state investment**

|   | Year 1 | Year 2 | Year 3 | Year 4 | Total |
|---|--------|--------|--------|--------|-------|
| Number of workers                                       | 24,000 | 12,000 | 2,000  | 2,000  |       |
| Employee expenses (\$ million) (\$60,000 avg, on-costs) | 1,800  | 900    | 150    | 150    | 3,000 |
| Capital and operational expenditure (\$ million)        | 600    | 300    | 50     | 50     | 1,000 |
| Proportion of expenditure                               | 60%    | 30%    | 5%     | 5%     | 100%  |

Based on extensive conservation land management experience across the country, we anticipate that a high proportion of operational and capital expenditure would stay in the local community, providing income for hardware stores, plant nurseries, pest control contractors and other local businesses.

This investment could be delivered as a series of thematic initiatives, or as a broader employment and conservation initiative, reminiscent of the highly popular [US Civilian Conservation Corps](#) (1933-1942), which provided work for millions of young, unemployed men during the Great Depression. More recently, economic stimulus measures by the US Government in response to the 2008 recession included US\$3 billion for natural resource conservation, creating tens of thousands of jobs and delivering long-term environmental benefits.

*This proposal is for an immediate stimulus package in response to the current crisis and is not intended as a substitute for the need for a longer-term package of measures to support the environment to recover after the bushfires, save threatened species and increase natural capital on our farms and in our landscapes.*

<sup>1</sup> This estimate is informed by consultation with conservation organisations with large field teams. It is based on an average salary of \$60,000 pa, plus 25% on-costs (\$75,000 total cost per worker). This reflects pay rates for a range of positions, from unskilled labourers to professional conservation land managers, with a skew towards the lower paid, physical labour roles. The ratio between salary, operational and capital costs will vary by activity, location and program, but is typically around 3:1 (75% salary and on-costs, 25% capital and operational costs).

## **21 CONFIDENTIAL**

### **21.1 2020 Max and Bette Mendelson Foundation - Scholarship Recipients**

#### **Reason for Confidentiality**

The Council is satisfied that, pursuant to Section 90(3)(a) of the *Local Government Act 1999*, the information to be received, discussed or considered in relation to this agenda item is:

- (a) information the disclosure of which would involve the unreasonable disclosure of information concerning the personal affairs of any person (living or dead).

#### **RECOMMENDATION(S)**

It is recommended to Council that:

1. Pursuant to Section 90(2) of the *Local Government Act 1999*, Council orders, that the public, with the exception of the Chief Executive Officer, members of the Executive and Management Teams in attendance at the meeting, and meeting secretariat staff, be excluded from attendance at so much of the meeting as is necessary to receive, discuss and consider in confidence, information contained within the confidential report Item 21.1 - 2020 Max and Bette Mendelson Foundation - Scholarship Recipients, attachments and any associated documentation submitted by the Chief Executive Officer, specifically on the basis of the provisions of Section 90(3)(a) because Section 90(3)(a) because the premature disclosure of this information would be unreasonable given it contains personal information relating to the applicants and breach any duty of confidentiality owed to them by Council.
2. At the completion of the confidential session the meeting be re-opened to the public.

## **21.2 Possible Acquisition of Land - Update**

### **Reason for Confidentiality**

The Council is satisfied that, pursuant to Section 90(3)(b)(i) and (b)(ii) of the *Local Government Act 1999*, the information to be received, discussed or considered in relation to this agenda item is:

- (b)(i) information the disclosure of which - could reasonably be expected to confer a commercial advantage on a person with whom the council is conducting, or proposing to conduct, business, or to prejudice the commercial position of the council.
- (b)(ii) information the disclosure of which - would, on balance, be contrary to the public interest.

### **RECOMMENDATION(S)**

It is recommended to Council that:

1. Pursuant to Section 90(2) of the *Local Government Act 1999*, Council orders, that the public, with the exception of the Chief Executive Officer, members of the Executive and Management Teams in attendance at the meeting, and meeting secretariat staff, be excluded from attendance at so much of the meeting as is necessary to receive, discuss and consider in confidence, information contained within the confidential report Item 21.2 - Possible Acquisition of Land - Update, attachments and any associated documentation submitted by the Chief Executive Officer, specifically on the basis of the provisions of Section 90(3)(b)(i) and (b)(ii) because the information received, discussed and considered in relation to this agenda item is information, the disclosure of which could reasonable be expected to severely prejudice Council's ability to achieve the best possible outcome relating to the acquisition of the property in Richmond and would, on balance, be contrary to the public interest.
2. At the completion of the confidential session the meeting be re-opened to the public.

## 11 CITY FINANCE & GOVERNANCE REPORT

### 11.1 Creditor Payments

#### Brief

This report tables a schedule of creditor payments for July 2020.

#### RECOMMENDATION

The Committee recommends to Council that the schedule of creditor payments for July 2020 be received.

---

#### Discussion

A schedule of creditor payments totalling \$5,620,215.76 (\$5,394,658.12 in June 2020) is attached for the information of Elected Members. Notable items include:

- Payments to Solo Resource Recovery totalling \$1,138,342.59 for both waste collection and disposal for May and June 2020 (refer ref. nos. 408 and 410);
- A payment to Romaldi Constructions Pty Ltd of \$418,635.20 for the redevelopment of Weigall Oval (refer ref. no. 380);
- A payment to Camco SA Pty Ltd of \$260,710.35 for the fuel tank removal at Marion Road depot, Stirling Street stormwater upgrade and other works (refer ref. no. 102);
- A payment to Enerven Energy Infrastructure Pty Ltd of \$246,426.90 for LED lighting upgrade (refer ref. no. 179);
- Payments to SA Power Networks totalling \$211,840.35 for LED lighting upgrade, street lighting and service installations (refer ref. nos. 391 and 392);
- A payment to Buckford Illumination Group Pty Ltd of \$161,673.00 for lighting on bikeways (refer ref. nos. 93);
- A quarterly payment to the Local Government Association Workers Compensation Scheme of \$156,129.60 to cover premium and membership requirements (refer ref. no. 293);
- A payment to Downer EDI Works Pty Ltd of \$156,128.45 for various road treatments (refer ref. no. 168);
- A payment to the Local Government Income Protection Fund of \$140,932.53 for insurance premium (refer ref. no. 289).

#### Climate Impact Considerations

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

The report includes creditor payments on projects and initiatives that aim to mitigate Council's impact on the climate.

#### Conclusion

A schedule of creditor payments for July 2020 is provided for Elected Members' information and review.

#### Attachments

##### 1. Creditor payments for the month of July 2020

## **11.2 Credit Card Purchases - April to June 2020**

### **Brief**

This report tables a schedule of credit card payments for the June quarter of 2020.

### **RECOMMENDATION**

It is recommended that the schedule of credit card payments for the June quarter of 2020 be received.

---

### **Discussion**

A schedule of credit card purchases for the June quarter of 2020 is included with this agenda as attachment 1, pursuant to a resolution of Council on 21 August 2018.

This schedule of purchases was posted to Council's website on 27 July 2020.

19 staff have been issued with Council credit cards. None have been issued to Elected Members.

### **Climate Impact Considerations**

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

There is no direct climate impact in relation to this report.

### **Conclusion**

A schedule of credit card purchases for the June quarter of 2020 is provided for Elected Members' information and review.

### **11.3 Register of Allowances and Benefits - 12 Months to 30 June 2020**

#### **Brief**

This report tables the register of allowances and benefits for Elected Members for the 12 months to 30 June 2020, prepared pursuant to the requirements of Section 79 of the *Local Government Act 1999*.

#### **RECOMMENDATION**

The Committee recommends to Council that the register of allowances and benefits for Elected Members for the 12 months to 30 June 2020, prepared pursuant to the requirements of Section 79 of the *Local Government Act 1999*, be received.

---

#### **Discussion**

The register of allowances and benefits for Elected Members for the 12 month period to 30 June 2020 is included with this agenda for information (**Attachment 1**). All amounts are gross, with reimbursements shown in the second last column.

#### **Climate Impact Considerations**

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

There is no direct environmental impact in relation to this report.

#### **Conclusion**

The register of allowances and benefits for Elected Members for the 12 months to 30 June 2020 is tabled for information.

#### **Attachments**

Note: (1) Allowances to Crs. Huggett and Papanikolaou include payments to each as members of the Mendelson Trust Management Committee. This payment is as a consequence of the Council's role as Trustee and not pursuant to any entitlement under the Local Govt Act, 1999 or the Local Govt (Members Allowances and Benefits) Regulations 2010.  
 (2) Complimentary tickets to SANFL matches at Richmond Oval are made available to Elected Members upon request.

## 11.4 Investment Review 2019/20

### Brief

This report provides a review of Council investments for 2019/20, pursuant to the requirements of Section 140 of the *Local Government Act 1999*.

### RECOMMENDATION

The Committee recommends to Council that the report be received.

---

### Introduction

A review of Council investments for 2019/20 is provided in this report, pursuant to the requirements of Section 140 of the *Local Government Act 1999*.

### Discussion

#### Working Account

Balances in Council's working account with the Commonwealth Bank were kept to a minimum throughout the 2019/20 financial year, except for short peak rate receipting periods, with these ranging from -\$10,737 to \$3.771 million.

Interest of \$1,972 (\$8,949 in 2018/19) was received during the year, with interest rates slowly reducing from 0.50 per cent in July 2019 to 0.00 per cent in March 2020.

#### Business Online Saver Account (BOS)

Council has operated a business on-line saver account with the Commonwealth Bank since December 2008. The interest rate on this account opened the year at 0.70 per cent in July 2019 and after negotiating a better rate with the bank we were able to obtain a rate of 1.10 per cent briefly before the rate started to fall to finish at 0.65 per cent in June 2020.

The BOS account held deposits of \$14,076 in July 2019, and was used periodically throughout 2019/20 when the interest rate was higher than at the Local Government Finance Authority (LGFA) to maximise our investment return. The balance peaked in March 2020 at \$10.143 million when deposits were earning 1.10 per cent. Due to RBA cash rate reductions we started to draw down on these funds as the LGFA account provided a better return. This left a closing balance of \$989,424 in June 2020.

Interest of \$20,207 was received on this account during the year (\$127 in 2018/19).

#### Local Government Finance Authority

During 2019/20 the LGFA offered interest rates on 24 hour call deposits at the RBA official cash rates. The year started with a rate of 1.25 per cent and reduced 4 times, in line with RBA movements throughout the year to close at 0.25 per cent in June 2020. During 2019/20 Council's 24 hour call account balance with the LGFA moved from \$4,054,701 in July 2019 to \$10,097,215 in June 2020.

During 2019/20 Council held no term deposits with the LGFA.

A loan of \$13,554,958 was taken with the LGFA in February 2020, repayable over a 15 year period at an interest rate of 2.78 per cent. As repayments are made at 6 month intervals the first instalment is due in August 2020, so the outstanding loan balance at 30 June 2020 remained unchanged at \$13,554,958.

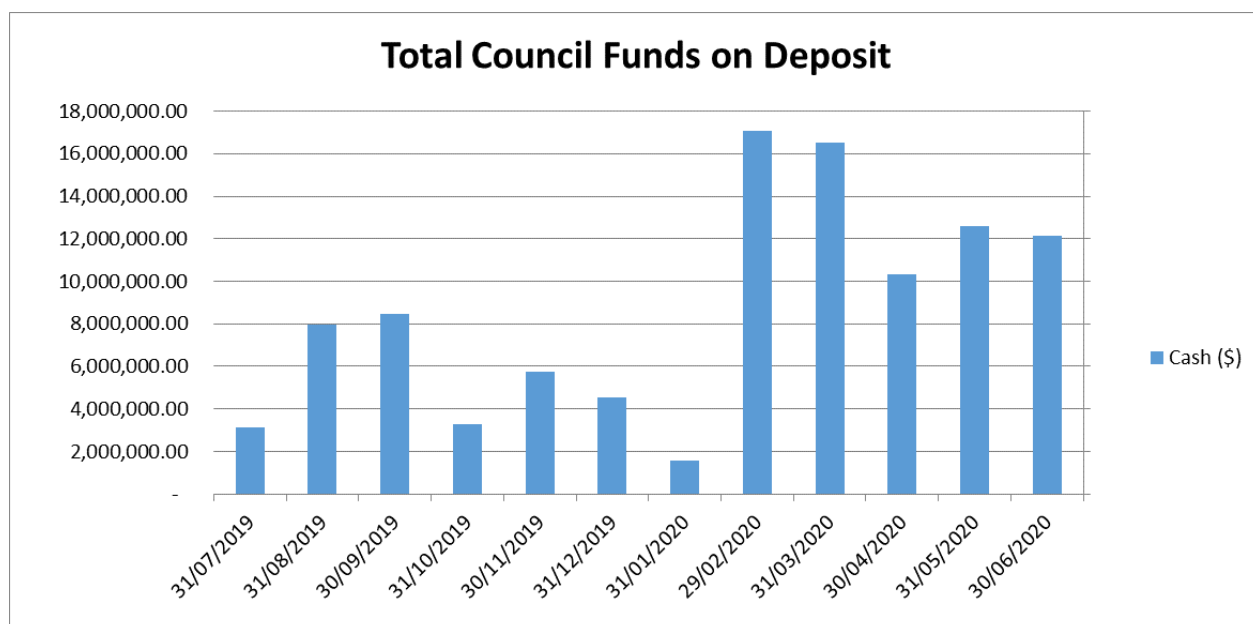

This new loan brings our total outstanding loan liability at 30 June 2020 to \$25,574,629.

In June 2020, Council authorised a cash advance debenture (CAD) capability of \$15 million (previously \$5 million). The purpose of this facility is to weather any cash flow issues arising from COVID-19.

Investment income generated from the LGFA for the 2019/20 financial year totalled \$31,637 compared to a total of \$217,124 in 2018/19. In addition Council received \$44,614 in bonus interest for the 2018/19 financial year.

### Term Deposits

No other term deposits were held during the year.

The following factors were taken into account in managing Council's investments:

- Council's current investment policy
- The movements in official interest rates;
- Investments only being placed with institutions rated at least A-, except where funds are covered by a Commonwealth Government guarantee;
- Diversification of Council investments;
- The annual bonus received from the LGFA (\$44,614 for 2018/19) - the equivalent of 0.35 per cent if fully attributed to Council investments;
- Substantial support currently provided by the LGFA to the local government industry; and
- The LGFA being fully guaranteed by the South Australian Government.

### **Climate Impact Considerations**

There is no direct climate impact consideration in relation to this report.

### **Conclusion**

This report provides a review of Council investments for 2019/20, pursuant to the requirements of Section 140 of the *Local Government Act 1999*.

## 11.5 Revision of the 2020/21 Budget

### Brief

This report proposes revision of the 2020/21 budget, and for this revision to be adopted by the Council.

### RECOMMENDATION

The Committee recommends to Council that:

1. Unspent funds from the 2019/20 budget totalling \$10,080,746 net of income yet to be received be incorporated in the 2020/21 budget, along with unspent reserve funds of \$849,655;
2. The reallocation of footpath program expenditure between renewal, construction and remediation works be endorsed; and;
3. The revised budget for 2020/21 be adopted.

### Introduction

Changes are proposed to the budget for 2020/21, to incorporate both reserve and unspent carryover funds from 2019/20, following review of the 2019/20 budget and progress toward finalisation of financial statements for the year ended 30 June 2020.

### Discussion

Following review of the 2019/20 budget, it is proposed that unspent carryover funds from 2019/20 be incorporated into the budget for 2020/21. The amount totals \$10,080,746 (\$10,983,446 in 2019), as shown in **attachment 1**, and incorporates the following:

|                                  | \$                | %            |
|----------------------------------|-------------------|--------------|
| Capital Works (excl overhead)    | 11,351,833        | 76.3         |
| Capital Expenditure              | 3,032,586         | 20.4         |
| Operational Expenditure          | 496,327           | 3.3          |
| <b>Sub Total</b>                 | <b>14,880,746</b> | <b>100.0</b> |
| Less Income / Sales not received | 4,800,000         |              |
| <b>Total</b>                     | <b>10,080,746</b> |              |

This amount is heavily committed, with Bagot Ave and three additional road programs accounting for \$4,234,794 or 42.0 per cent of the carryover amount (net of overheads). Stormwater and drainage programs contribute an additional \$2,265,620 or 22.5, mostly involving the upgrade in Stirling Street Thebarton. Lastly, community oval/sporting facility funding accounts for a further \$2,154,956 or 21.4 per cent of the carryover amount.

Unspent reserve funds of \$849,655 are also proposed for inclusion in the 2020/21 budget, to fund capital and other activities, including upgrade work associated with the Thebarton Community Centre. Details are as follows:

- Thebarton Community Centre funds of \$300,000 to further upgrade the facility;
- Funding of \$304,655 (incl. overhead) in road funding from grant income received last financial year;
- Operational expenditure of \$245,000, including overtime of \$200,000.

Feedback has resulted in a change being made to the allocation of footpath program expenditure between renewal, construction and remediation works as follows:

| <b>Program</b>        | <b>Adopted<br/>Budget<br/>(\$)</b> | <b>Revised<br/>(\$)</b> |
|-----------------------|------------------------------------|-------------------------|
| Footpath Renewal      | 208,898                            | 215,992                 |
| Footpath Construction | 60,875                             | 49,952                  |
| Footpath Remediation  | 294,003                            | 297,832                 |
| <b>Total</b>          | <b>563,776</b>                     | <b>563,776</b>          |

### **Climate Impact Considerations**

*(Assessment of likely positive or negative implications of this decision will assist Council and the West Torrens Community to build resilience and adapt to the challenges created by a changing climate.)*

There is no direct climate impact in relation to this report.

### **Conclusion**

Changes are proposed to the budget for 2020/21, to incorporate both reserve and unspent carryover funds from 2019/20, following review of the 2019/20 budget and progress toward finalisation of financial statements for the year ended 30 June 2020.

## 11.6 Legislative Progress Report - August 2020

### Brief

This report provides an update on the status of proposed legislative changes affecting local government either dealt with in Parliament, by the Local Government Association or contained in the Government Gazette during the preceding month.

### RECOMMENDATION

The Committee recommends to Council that the report be received.

### Introduction

This report provides a monthly update on the progress of Bills through Parliament, using Parliament's defined stages, as well as items contained within the Government Gazette that relate to the City of West Torrens. It also contains information provided by the Local Government Association (LGA) relating to proposed amendments to legislation or other relevant matters.

Information on the status of all Bills and Acts is available on the South Australian Legislative Tracking and the Federal Register of Legislation websites at:

<https://www.parliament.sa.gov.au/Legislation/SALT> and/or <https://www.legislation.gov.au/>

### Discussion

| <b>Summary of Proposed Amendments to Legislation</b>  |
| Nil   |
| <b>Bills previously reported on where the status has changed</b>  |

***Freedom of Information (Miscellaneous) Amendment Bill 2018*****Government Bill**

This Bill seeks to change the definition of public interest, amend the processes for determining that a document does not exist and changes definitions relating to the nature and scope of an application. It also changes the processes for determination of an application.

The Bill passed the Legislative Council with amendments on 18 October 2018. It was read for the first time in the House of Assembly on the 8 April 2020, and adjourned at second reading on 21 July 2020.

**Further information can be found on the South Australian Legislative Tracking website.**

***Statutes Amendment (Local Government Review) Bill 2020*****Government Bill**

Introduced and read for the first time on 17 June 2020, this is a Bill to amend the Local Government Act 1999, the Local Government (Elections) Act 1999, the City of Adelaide Act 1998 and other related Acts.

The Bill has been adjourned at second reading. It is expected that the Bill will be read in the upper house in September. Council has provided feedback to the Local Government Association in response to the Bill.

**Further information on the reforms can be found at on the DPTI Website at [https://www.dpti.sa.gov.au/local\\_govt/local\\_government\\_reform](https://www.dpti.sa.gov.au/local_govt/local_government_reform)**

**Bills previously reported on where the status remains unchanged*****Automated External Defibrillators (Public Access) Bill 2019*****Private Members Bill**

The *Automated External Defibrillators (Public Access) Bill 2019* was introduced to the Legislative Council on 16 October 2019 by Hon F Pangallo (MLC).

An Automated External Defibrillator is a portable device able to treat cardiac arrest by applying an electric shock to restore normal heart rhythm.

If passed by State Parliament, Automated External Defibrillators will be mandatory in all public buildings (including schools and universities, libraries, sporting facilities, local council offices and swimming pools) which the public have access to.

Privately owned buildings including shopping centres, aged care and retirement villages, commercial properties over 600 square metres in size, and certain residential apartments will also be required to install the device.

It will also be mandatory for the devices to be installed in all emergency services vehicles, including SAPOL, the Metropolitan Fire Service, Country Fire Service and State Emergency Service.

A maximum fine of up to \$20,000 would be imposed on those who failed to abide by the new laws.

The Bill has been adjourned at second reading on 16 October 2019.

Council has installed defibrillators in the Civic Centre, Hamra Centre, Thebarton Community Centre and Plympton Community Centre. It has also installed defibrillators in a number of its leased facilities including the Hilton RSL, Western Youth Centre, Fulham Community Centre,

Airport Over 50s Club etc. In addition, it has provided community grants to other community groups such as the Glenelg Baseball Club. As such, if this Bill is passed then it will not result in any major impost on Council.

**Further information can be found on the South Australian Legislative Tracking website.**

### ***Development (Site Contamination) Variation Regulations 2018***

#### **Government Regulations**

The Department of Planning, Transport and Infrastructure (DPTI) has released the draft *Development (Site Contamination) Variation Regulations 2018*, along with an explanatory statement. These draft regulations are designed to ensure site contamination is considered in an appropriate way, commensurate with the nature of the development, the potential risk and stage in the planning process. They also aim to facilitate timely and appropriate consideration of contamination issues and will encourage clarity of evaluation by planning authorities.

Planning authorities, developers and other stakeholders have an important role in managing site contamination by ensuring good planning and development does not exacerbate risk.

Stakeholders were encouraged to make submissions relating to the draft regulations to the Environmental Protection Agency and/or DPTI on 15 May 2019. No feedback on the on the draft has yet been released by DPTI.

**Further Information can be found in LGA Circular 9.7.**

### ***Independent Commissioner Against Corruption (Investigation Powers) No 2 Amendment Bill 2018***

#### **Government Bill**

This Bill was restored in the House of Assembly for discussion on 6 February 2020.

This is a Bill to amend the Independent Commissioner Against Corruption Act 2012 (Act). It is the second Bill introduced in this parliamentary session which intends to amend the Act.

The Bill seeks to amend the functions of the Independent Commissioner Against Corruption (ICAC) with broad sweeping reforms, including allowing the Commissioner to conduct a public inquiry, investigators being able to arrest individuals without warrants in certain circumstances and other broad changes.

The Bill was introduced to the Legislative Council, read a first time, and adjourned at second reading on 15 November 2018. The Bill passed the Legislative Council with amendments on 21 March 2019 and has been adjourned at second reading in the House of Assembly on 19 June 2019.

**Further information can be found on the South Australian Legislative Tracking website.**

### ***Local Government (Fixed Charges) Amendment Bill 2018***

#### **Government Bill**

This Bill seeks to amend s152 of the *Local Government Act 1999*.

The amendment seeks to include each residence in a retirement village (within the meaning of the *Retirement Villages Act 1987*) as a type of allotment to which a fixed charge for rates cannot be applied.

The Bill was introduced to the Legislative Council and read a first time on 17 October 2018. It has been adjourned at second reading.

**Further information can be found on the South Australian Legislative Tracking website.**

***Liquor Licensing (Miscellaneous) Amendment Bill 2019***

**Government Bill**

This Bill amends the Liquor Licensing Act 1997 (Act). The proposed amendments are in support of the review into the Act, conducted by the Hon. Mr Tim Anderson QC in 2016, which led to the passage of the Liquor Licensing (Liquor Review) Amendment Act 2017 (the Liquor Review Act).

The Liquor Review Act has been commenced in stages and the final stage is proposed to commence on 18 November 2019. This will predominantly relate to the provisions that create new licence classes that transition the current licence classes to those new classes.

Drafting of regulations is being undertaken in the Attorney-General's Department to prepare for the new licensing regime.

The Bill was passed in the House of Assembly and is now in committee in the Legislative Council. Adjourned at Second Reading on the 12 September 2019.

**Further information can be found on the South Australian Legislative Tracking website.**

***Planning, Development and Infrastructure (Carparking Requirements) Amendment Bill 2019***

**Private Members Bill**

This Bill, introduced by Hon T Piccolo, amends the *Planning, Development and Infrastructure Act 2016* providing minimum carpark requirements on all dwellings.

Amendment of section 108 - categorisation:

In the case of a 1 bedroom dwelling, the requirement to provide for at least 1 carpark, and 2 carparks for a dwelling with 2 or more bedrooms. Carparks are required to be on site or on a site within 100 metres of the dwelling. If the development does not meet these requirements it will be classified as restricted development.

Amendment of section 110 - restricted development:

If the Commission makes an assessment under s110 of the Act in relation to restricted development, the Commission must take into account the relevant provisions of the Planning and Design Code, but is not bound by those provisions.

The Bill was introduced to the House of Assembly on 13 November 2019 and adjourned at second reading on 13 November 2019.

**Further information can be found on the South Australian Legislative Tracking website.**

***Planning, Development and Infrastructure (Code Amendments) Amendment Bill 2019***

**Private Members Bill**

This Bill was introduced to the Legislative Council on 27 February 2019. The Bill affects the heritage places provisions of the PDI Act and intends to remove the requirement for 51% of relevant owners to approve of a property or area being designated as a heritage character for preservation zone or subzone.

The Bill has been received in the House of Assembly on 4 July 2019, and has been adjourned at first reading.

**Further information can be found on the South Australian Legislative Tracking website.**

***Planning, Development and Infrastructure (Commencement of Code) Amendment Bill 2019***  
**Government Bill**

The Bill was first introduced in the Legislative Council, and after passing was transmitted to the House of Assembly on 5 December 2019.

The Bill was restored in the House of Assembly on 5 March 2020, and is now awaiting assent. The Bill removes any reference in the *Planning, Development and Infrastructure Act 2016* to "1 July 2020" and replaces it with "the designated day". This gives the Minister the power to delay the implementation of the Code to a day of his choosing. The Minister flagged that the designated day will be in September, but this has not yet been confirmed.

The Bill is now awaiting assent.

**Further information can be found on the South Australian Legislative Tracking website.**

***Planning, Development and Infrastructure (Reserves) Amendment***  
**Private Members Bill**

This Bill, introduced by Hon M C Parnell (MLC), amends the *Planning, Development and Infrastructure Act 2016* to include reference to the *National Parks and Wildlife Act 1972*, and to ensure that developments within a reserve are classified as a restricted development.

The Bill was introduced to the Legislative Council on 31 July 2019.

It was passed in the Legislative Council on 16 October 2019 and has been received in the House of Assembly and adjourned at first reading on 17 October 2019.

**Further information can be found on the South Australian Legislative Tracking website.**

***Single Use and Other Plastics (Waste Avoidance) Bill 2018***  
**Private Members Bill**

This Bill seeks to regulate the sale and supply of single use and other plastics.

The Bill provides that retailers must provide alternatives to prohibited plastics before 1 July 2023 and creates an offence for releasing helium-filled balloons into the open. It also creates a requirement to provide disposal instructions for fishing tackle and personal hygiene products.

The Bill was introduced to the Legislative Council and read a first time on 25 July 2018. The Bill has been adjourned at second reading.

**Further information can be found on the South Australian Legislative Tracking website.**

***Valuation of Land (Separate Valuations) Amendment Bill 2018***  
**Government Bill**

This Bill was introduced to the Legislative Council and proposes amendments to clarify that separate assessments should only be made in circumstances where it is required by law or when a property has been separately occupied since 1967 or under a shack site lease and is situated on land where formal subdivision is prohibited.
