

# Keep your dog healthy in the heat

## Pay attention to body language

Research signs and symptoms of heat stress for your breed of dog.

## Drinking water

Don't forget to hydrate your pet with fresh drinking water.

## Pavement and paws

If the back of your hand can't stand the heat of a pavement for 7 seconds, it's too hot for a walk.

Seek shade

## Stay cool

Enjoy water play with your pet pal.

## Plan exercise

Schedule exercise for cooler times of the day.

## Hot cars can be deadly

Never leave animals in parked cars - temperatures can double in minutes.
