

APEX PARK WETLAND ADVENTURE

WHEN IT RAINS, WATER THAT FALLS ON THE NEARBY ROOFS AND STREET GUTTERS FLOWS INTO THE WETLANDS. THE REED BEDS HELP TO FILTER THE WATER, CLEANING IT BEFORE IT IS RELEASED INTO THE RIVER TORRENS.

APEX PARK WETLAND ADVENTURE

When exploring natural spaces please take care and consider the wellbeing of yourself, the environment and the creatures living there.

X MARKS THE SPOT

Make a treasure hunt that ends at the twisty gum tree.

FROG IN A BOG

Look under the rocks to see if you can find a frog. Gently put the rocks (and the frogs) back afterwards.

BIRDS OF A FEATHER

How many different species of bird can you count, and can you name them?

NATURE'S CALLING

Close your eyes and listen for 3 minutes to the different sounds.

Draw a sound map in the dirt.

KAURNA REFLECTION

Would the wetlands have looked like this when the Kaurna people were here?

KAURNA FACT

The root from the Bulrush plant was used by the Kaurna people to make twine that could be fashioned into nets to catch fish.

Frog = Ngurtu
